In this case that is not the case. This is nothing that I have control over, whether a machine is broken down, but yet Larry would have a fit over the fact that something wasn't being done. But if a machine is broken down, all I can do is tell the maintenance supervisor, Mr. Duffy, that that needs repaired, and he puts it on his list of priorities. Well, Larry going off on me over someone else not doing their job isn't something that I would consider where he is telling me I haven't done my job properly. That's where someone else hasn't done something to his satisfaction and he's not happy, but that in no way reflects anything I did. Q. Now let's look at there's a binder of materials that includes your portions of your document productions, and they're labeled Plaintiffs' Exhibits, and I want you to turn to Exhibit 66. A. Okay. 1	when this note was made, but if it was made in	11:31:54	1	MS. BERTRAM: I guess we'll get the	
2	January, I didn't take note of it. But Ed had the	11:32:01	2	question and the answer back. We were talking about	
3	his main job, aside from mediating what was going on	11:32:08	3	ISO audits.	11:36:34
4	in February, was to train to train supervisors or	11:32:12	4	(The record was read by the reporter.)	11:36:34
5	lead men.	11:32:21	5	MR. LEE: Okay. I got the question.	11:36:35
6	So if he's talking about training, it's not	11:32:24	6	A. So what I was saying	
7	training of me as much as trying to find a replacement	11:32:26	7	MR. LEE: Objection to the form for the	11:36:35
8		11:32:32	8	•	11:36:38
9	for Dan Durrand, who was the CNC, and Pavel Tarrawonga	11:32:42	9	record. Objection to the form of the question, but	11:36:39
10	was raised as the next possible replacement, and	11:32:47	10	please go ahead and answer it, if you can.	11:36:4
11	Flatley disagreed with him. So it has to do with Ed	11:32:55	11	A. Okay. What I'm saying there, in my	11:36:45
	Suraci did do one-on-one training with Pavel	11:32:59	12	estimation, is that because because ISO requires	
12	Tarrawonga.			certain safety documents to be kept like what's on the	11:36:51
13	Q. So above the reference to December, and I	11:33:00	13	pitch board in some cases forever so that there's an	11:36:55
14	think it's 19-2014, there's a line and above it, it	11:33:03	14	audit trail that, if someone were to be hurt down the	11:36:59
15	says, "Baldor on back order," B-A-L-D-O-R. What's	11:33:08	15	road, that they can come back and see that all the ISO	11:37:03
16	Baldor?	11:33:14	16	regulations were followed and that the audits were	11:37:0
17	A. Which which	11:33:15	17	done.	11:37:1
18	Q. It's right above the date that you	11:33:16	18	So that's my notation that ISO is going to look	11:37:1
19	referenced earlier above "Staff Meeting."	11:33:18	19	at this so I'm going to keep that. So I maintain	11:37:1
20	A. Okay. Baldor is usually an electrical	11:33:20	20	those records. That's why some of the stuff was in	11:37:2
21	motor. They're a manufacturer. So I don't know that	11:33:31	21	that credenza, that we were required by ISO to keep	11:37:2
22	specific note. But if it says, "Baldor on back	11:33:36	22	certain documents forever. So that's my impression of	11:37:3
23	order," that's probably referencing a machine that was	11:33:39	23	what that is.	11:37:3
24	broken and the part had been ordered, but it was on	11:33:42	24	But the next thing where it says "audit" does	11:37:3
25	back order, so we were probably just discussing how	11:33:48	25	not apply to the ISO. I think that that audit is	11:37:4
1	soon the machine might be repaired and brought it back	11:33:53	1	pertains to something to do with Jurga. So it wasn't	11:37:48
2	up online.	11:33:57	2	ISO audit. ISO is said on the line above, but audit	11:37:50
3	Q. And then under the reference to staff	11:33:59	3	has something to do with Jurga, that Jurga was to	11:38:00
4	meeting it says, "ISO," I-S-O, and then on the next	11:34:01	4	audit something.	11:38:02
5	line it says, "audit." Do you know what that's	11:34:07	5	Q. Is it your understanding that Mr. Flatley	11:38:07
6	referring to?	11:34:09	6	met with the other three cell coordinators for weekly	11:38:09
7	A. I do not see ISO anywhere. Oh, okay.	11:34:10	7	meetings?	11:38:16
8	Q. It's about four lines underneath it.	11:34:22	8	A. Yes.	11:38:16
9	A. So I don't know for sure. We're trying to	11:34:35	9	Q. And did you attend those meetings as well?	11:38:1
10	do a forensic examination of handwritten notes of	11:34:41	10	A. No.	11:38:19

And did you have a meeting with them about it? A. Not in this particular context, no. Q. Do you recall just generally what time it was, whether, for instance, it was after the February 2014 review or before it? A. No, I really can't say. Q. And did anybody else work with you on the drafting of this document? A. The team always had input on some of the things that we were doing, so while they were part of this, but no one sat with me and specifically formulated this that I know of. Q. Let's go to the next page, which is 337. And these are your handwritten notes on this page as well, right? A. Q. Each of these three points or at least the second and the third point have quotes around them. Did you write these down as he was saying them? A. No, that wouldn't certain managers view things differently. Some wanted you to take notes as we spoke and others would and they would say, if you're not taking notes, you're not listening. There are other managers that tend to feel that, if you're taking notes while they're speaking, you're not listening to them, you're note-taking. So Dan Fontaine was one who was a notetaker. He wanted you to take notes as, if you don't, you're disrespecting me. Flatley was somebody that he wanted he made overt gestures and huge statements to make an impression. Let's focus on the period prior to February, you know, the February 2014 review. When did you first start working informally with Mr. Francis? MR. 2	February 2014 evaluation?	12:11:31	2	MR. LEE: Well, fifteen more minutes?	12:14:56
3	A. Absolutely. There are dozens of them, but	12:11:33	3	That's fine. I mean	12:14:58
4	I don't know what I don't know that I could point	12:11:40	4	A. I'm good.	12:14:59
5	to them specifically. When we held a Unit A part	12:11:42	5	Q. Okay. And so you you said you you	12:14:59
6	of my teaching style or managing style was to set	12:11:52	6	said he mandated coaching. Is that Larry Flatley who	12:15:03
7	goals and get everybody marching in the same	12:11:57	7	mandated coaching on lean manufacturing?	12:15:06
8	direction.	12:12:01	8	A. Yes. There are there are a number of	12:15:09
9	So when we met those goals, there's a point	12:12:01	9	documents that where he he wrote it. As a	12:15:11
10	where you have to you take a step back and and	12:12:06	10	matter of fact, he had already researched different	12:15:15
11	recognize the people in the department for the things	12:12:12	11		12:15:24
12		12:12:16	12	seminars to take, and actually had time set up that we	12:15:31
13	they have done.	12:12:16	13	couldn't I don't know that you can even get into	12:15:35
14	So I would throw a lunch, and one of the	12:12:19	14	these seminars, but here's a list of them, and and	12:15:43
15	conference rooms that was available for the employees	12:12:23	15	then he told me, you're not going to want to do this	12:15:49
16	for my whole department to meet at and have lunch was	12:12:26	16	shit, that you should just quit.	12:15:54
17	in the swish "SWashroom," which was Smith & Wesson	12:12:26	1	So those seminars are written on that sheet and	12:15:54
	operating system's room which was in the annex of		17	there were a number of documents that show the	
18	Bob Francis' office.	12:12:38	18	progress of those classes.	12:15:59
19	So because we met there, it it's basically	12:12:40	19	Q. Did Mr other than lean manufacturing,	12:16:02
20	part of his office, so there would be interactions	12:12:46	20	did Mr. Flatley mandate that you needed any other	12:16:07
21	there. He would give us insight on where we needed to	12:12:49	21	coaching from Mr. Fontaine I'm sorry, from	12:16:11
22	go, you know, what his point of view was, but, again,	12:12:56	22	Mr. Francis?	12:16:14
23	where I was more of an open book and and liked	12:13:00	23	A. No, not that I know of.	12:16:17
24	to to get information from other people how they	12:13:04	24	Q. And was there any other coaching that	12:16:19
25	were doing it, there were others that that didn't	12:13:10	25	Mr. Francis provided to you after your February 2014	12:16:21
1	have that kind of style. They were more prideful and	99	1	review other than the lean manufacturing coaching?	101
2	didn't want anyone telling them what to do, like	12:13:18	2	A. Yes. He helped and coached with the areas	12:16:27
3	Flatley.	12:13:22	3	of his expertise, which was lean. So when Flatley	12:16:32
4	Q. And you said that after your February 2014	12:13:24	4	would have problems with the pitch board, I usually	12:16:39
5	review became the coaching became more formal; is	12:13:29	5	sought out instruction from Bob so that what Flatley	12:16:46
6	that right?	12:13:35	6	was asking was within the sphere and okay with Vice	12:16:54
7	A. Well, he he mandated it after February	12:13:35	7	President Francis.	12:16:59
8	that I do certain things as more of a remediation for	12:13:41	8	Q. Now did you also, after your after your	12:17:09
9	having a review that way. Even though it was deemed	12:13:44	9	June 2014 I'm sorry. After your June 2013	12:17:11
10	not to be a formal review, Fontaine said it didn't	12:13:49	10	evaluation and until February of 2014, the interim	12:17:15
11	exist because it was out of cycle in response to	12:13:54	11	evaluation that you received, did you have discussions	12:17:20
12	Mr. Suraci.	12:13:58	12	with human resources?	12:17:22
13	So I felt like, in order to make the situation	12:14:00	13	A. Yes.	12:17:24
14	better, I did the I did the remediation things	12:14:08	14	Q. And you contacted them because you thought	12:17:25
15	regardless. And one of them was he wanted me to have	12:14:14	15	that Mr. Flatley was being unfair to you, right?	12:17:29
16	lean training, and there were no courses in the	12:14:21	16	A. Among other things.	12:17:33
17	syllabus of the seminars that Flatley had pointed me	12:14:25	17	Q. And you felt that Mr. Flatley was	12:17:34
18	to, so Flatley agreed to allow Francis to be the	12:14:29	18	mistreating you, correct?	12:17:37
		12:14:37	19	A. Yeah, among other things.	12:17:38

2	A. Yes.	12:17:57	2	have been the first time I had went to speak with her.	12:21:17
3	Q. And that was around September of 2013,	12:18:00	3	Q. And the the conversation with Anne	12:21:18
	right?			Bruce, was that with a group of people or were you	
4	A. Either August or September.	12:18:01	4	talking to her individually?	12:21:21
5	Q. Okay. And your complaint indicates that	12:18:04	5	A. Yes, it was it was a presentation she	12:21:22
6	you reported that conversation with Mr. Flatley to HR;	12:18:10	6	made to all salaried people.	12:21:24
7	is that right?	12:18:16	7	Q. And what concern when you went and spoke	12:21:29
8	A. That's correct.	12:18:16	8	with Ann and Kathy, what concerns did you have about	12:21:32
9	Q. Who did was that the first time you had	12:18:17	9	your salary?	12:21:35
10	reached out to HR about Mr. Flatley?	12:18:20	10	A. I felt that the Anne Bruce said that	12:21:36
11	A. I don't believe it was the first time, no,	12:18:22	11	they were going to stop doing merit raises where they	12:21:45
12	but it was one of the more notable times, yes.	12:18:28	12	just gave so it was basically the friend network.	12:21:48
13	Q. Okay. And do you recall the first time	12:18:32	13	You couldn't have a buddy that you that worked with	12:21:52
14	that you reached out to HR about with concerns	12:18:34	14	you, and you're just going to be given raises, that	12:21:54
15	about Mr. Flatley?	12:18:37	15	they were going to be structured within her system and	12:21:57
16	A. I think it was in the it would be a few	12:18:39	16	they would be there would be no more merit raises,	12:22:00
17	months earlier than that. It would have been the	12:18:43	17	but that everyone would get a certain raise at certain	12:22:03
18	summer of 2013.	12:18:47	18	intervals based on market rates of people doing that	12:22:06
19	Q. Okay.	12:18:52	19	job within your city and compared nationally.	12:22:11
20	A. But the exact date I'm without	12:18:53	20	So the question was asked by another CC, what	12:22:16
21	without access to my computer at work and those type	12:18:58	21	about people who have only been there for a short	12:22:21
22	of things, it's some years later, it's hard to to	12:19:01	22	period of time, would they be eligible for that, and	12:22:23
23	say exactly.	12:19:05	23	the answer Ms. Bruce gave was affirmative.	12:22:26
24	Q. And who did you who did you reach out to	12:19:06	24	So when I got that good review, I did not get	12:22:30
25	at HR at that point in the summer of 2013?	12:19:10	25	the the cost of living raise that others got. I	12:22:34
1	A. I went to Ann Glica or Glica, I'm not sure	12:19:12	1	was close enough with some of the other CCs that they	12:22:4
2	how you pronounce it, and she I spoke with her	12:19:18	2	had told me they had gotten their raise but I had not.	12:22:43
3	first, and at that point we were she was meeting in	12:19:25	3	I went to Ann over the fact that I hadn't got	12:22:47
4	the their offices were being renovated, so we met	12:19:29	4	that raise, and we discussed why I believed it was	12:22:54
5	in the they had mobile offices put in the parking	12:19:33	5	unfair and that I felt that it was possibly an	12:22:59
6	lot.	12:19:35	6	outgrowth of the growing animosity that I that	12:23:03
7	So I met Ann in one of those trailers. And	12:19:36	7	Flatley was displaying towards me relative to the	12:23:07
8	because her office wasn't an office it was more	12:19:41	8	Pioneer Tool issues that were occurring.	12:23:1
9	just like a cubicle in that trailer, we discussed some	12:19:45	9	So we went into the issues at EASTEC and some	12:23:18
10	things that she felt maybe rose to the level of	12:19:48	10	of the tooling things where they were giving given	12:23:24
11	speaking with her boss, Kathy Salvador, which was in	12:19:54	11	favoritism over other companies and whereby there were	12:23:29
12	the next cubicle.	12:19:57	12	actual charges that he that they should have been	12:23:32
13	Q. Okay.	12:19:58	13	billed for or given us a they should have actually	12:23:38
14	A. So at that time Kristan Campanella and	12:19:59	14	given us refund on some issues, and Flatley refused to	12:23:45
15	and the other HR people were not in that trailer, so	12:20:05	15	do so. So he was acting unilaterally to wipe off	12:23:49
16	it was just basically Ann and Kathy. And so Kathy	12:20:11	16	bills for Pioneer that that he had no authority to	12:23:54
17	then took over. We we discussed issues relating to	12:20:15	17	do, and I	12:24:00
18	my pay increase. That would have happened right	12:20:22	18	Q. Did you	12:24:04
19	around that good review in summer of 2013.	12:20:25	19	A. I'm sorry. And I felt that was that was	12:24:05
	Q. So it would have been was it before or	12:20:41	20		12:24:07
20	after your evaluation in June of 2013?	12:20:44	21	part of the growing animosity between Flatley and	12:24:14
20 21			22	myself, and I thought that me not receiving that raise	12:24:18
	·	12:20:47		was was an outgrowth of the growing disfavor he had	12.24.15
21	A. That would have been right after, because	12:20:47			12.24.0
21 22 23	A. That would have been right after, because there was a meeting that Ann Glica I'm sorry	12:20:49	23	for for me opposing him on Pioneer.	12:24:24

5	first went to the barbecue at EASTEC, we went to the	12:24:49	5	So there was a charge there that they should	12:28:23
6	conference during the day or the trade show, and then	12:24:53	6	have refunded us for that they did not, and it was in	12:28:25
7	we were invited afterwards to Pioneer Tool for a	12:24:57	7	the tens of thousands of dollars, and it was never	12:28:29
8	barbecue.	12:25:02	8	addressed and Flatley let it go.	12:28:32
9	At that barbecue I went with Stan Wnuk and	12:25:04	9	So there was that issue. There was another	12:28:35
10	Larry Flatley, and Larry Flatley told me that, if you	12:25:08	10	issue that had to do with a Counter Sixth that they	12:28:38
11	come back tomorrow night, you'll be the highest paid	12:25:16	11	sent in and Joe there's a document on it Joe	12:28:42
12	or the highest ranking Smith & Wesson employee and	12:25:21	12	Codding mentioned that they did not work and it was	12:28:46
13	you'll be sure to win something. And I thought it was	12:25:25	13	scrapping parts.	12:28:50
14	a joke. I laughed, and I didn't, you know, I didn't	12:25:28	14	So we went to the RoboCrib and every tool in	12:28:51
15	give it much thought.	12:25:32	15	the RoboCrib was was bad. They were made by	12:28:56
16	But I related that incident and the fact that	12:25:36	16	Pioneer. After checking a certain number of tools, I	12:28:59
17	when the driver came to my office with an iPad and	12:25:41	17	instructed Joe to send them back to Pioneer for	12:29:03
18	attempted to hand it to me and said Flatley had won	12:25:46	18	repair. He did so. They charged us for those tools	12:29:07
19	something, I said, that's not my office, I told him	12:25:51	19	again, even though they they should not have been	12:29:12
20	where the office was, I wouldn't take it, and so I	12:25:56	20	charged. They should have repaired them.	12:29:16
21	reported that incident to them. And	12:26:01	21	And then Flatley told me that I not to bill	12:29:20
22	Q. Other	12:26:07	22	them for it. I I said that we shouldn't have	12:29:26
23	A. Go ahead.		23	or, I mean, not to ask for the refund, just let it	12:29:29
24	Q. Other than the incidents surrounding	12:26:07	24	alone, it's not my area.	12:29:32
25	EASTEC, the iPad interaction, the refund that was	12:26:14	25	So the tools that then they had returned were	12:29:34
1	refused, and the wiping off of bills, did you raise	12:26:19	1	still bad. So I took them out of the vending machine	12:29:41
2	any other concerns with Ms. Glica or Ms. Salvador	12:26:23	2	and fixed them at no charge. And then there was an	12:29:45
3	during that meeting?	12:26:28	3	interaction between Flatley and I over over that	12:29:49
4	A. Yes. We we talked about the fact that	12:26:29	4	issue where he mandated I couldn't pull tools anymore.	12:29:53
5	Josh Burry had a one month where he was charged	12:26:33	5	The issue there was and Mr. Cicero	12:29:58
6	\$63,000 by by Pioneer. We I talked to Larry at	12:26:39	6	mentioned they shouldn't that I shouldn't have	12:30:04
7	EASTEC and said Burry's complaint was that, when he	12:26:49	7	repaired those tools. Anytime it can shut down	12:30:07
8	goes to vend a tool, he opens the door and nothing is	12:26:55	8	production, I'm mandated to fix the tools. I can't	12:30:11
9	in there, but when that vending takes place, we	12:26:58	9	wait for the vendor to come in and fix their tools.	12:30:15
10	instantly get charged.	12:27:01	10	Production takes precedence over everything.	12:30:19
11	The tools he was talking about were \$300 to	12:27:03	11	So I know I've said more than what your	12:30:23
12	\$400 each, and he felt that that was a problem in	12:27:08	12	question was. I apologize.	12:30:26
13	causing the his bill to be that high that month,	12:27:12	13	Q. And was it your understanding that the	12:30:27
14	that many of the charges were unfounded.	12:27:16	14	tools that needed to be repaired were on consignment?	12:30:29
15	So he's making the claim. I have no way to	12:27:18	15	A. There they provided multiple tools for	12:30:34
16	verify whether that was or wasn't happening. Flatley	12:27:24	16	us. If they were put in the RoboCrib to be vended	12:30:38
17	could not either. So I mentioned at the the trade	12:27:27	17	out, then those are consignment. But if they deliver	12:30:44
Τ0	show booth with Larry that, if that was in fact		18	them and they're to be put in Crib 99, then it is not	12:30:48
10	happening, that there were bins that were empty, that	12:27:35	19	consignment, it's they are they are tools that	12:30:53
19		12:27:40	20	we will put in as burned. So we buy them all. And in	12:30:59
20	there would likely be more bins that would be empty in	40.05		the case where it's something that we own that they	12:31:02
20 21	that RoboCrib. There were a thousand possibly a	12:27:44	21	•	10.00.05
20 21 22	that RoboCrib. There were a thousand possibly a thousand tools in that RoboCrib. If that happened to	12:27:46	22	resharpen, it would probably have not been a	12:31:05
20 21 22 23	that RoboCrib. There were a thousand possibly a thousand tools in that RoboCrib. If that happened to the extent he was saying, just by sheer statistics,	12:27:46 12:27:50	22	resharpen, it would probably have not been a consignment order. They were just sharpening a tool	12:31:08
20 21 22	that RoboCrib. There were a thousand possibly a thousand tools in that RoboCrib. If that happened to	12:27:46	22	resharpen, it would probably have not been a

2	at no charge, were they in the RoboCrib or Crib 99?	12:31:21	2	A. According to Ms. Bruce's talk, she wanted	13:30:0
3	A. I can't recall at this time.	12:31:25	3	to take the subjectivity out of it so make it more	13:30:1
4	Q. Okay. Did you raise any other concerns	12:31:26	4	streamlined so it would follow a set, set of rules.	13:30:1
5	during this initial meeting with Ms. Salvador and	12:31:30	5	So that was the initial reason I went there, but I	13:30:2
6	Ms. Glica about any actions or actions by Larry	12:31:34	6	in a short period of time I don't have the emails	13:30:2
7	Flatley?	12:31:40	7	so I can't tell you when she did but I got an email	13:30:3
8	A. There weren't issues well, they they	12:31:42	8	from Salvador saying that you got your raise in your	13:30:3
9	had to do with there were no more issues that came	12:31:47	9	last check, that it had been setting on Larry's desk.	13:30:3
0	up, let's put it that way, and I can't tell you	12:31:53	10	So that made it seem as if, my impression was	13:30:4
1	everything that I mentioned, but I those are the	12:31:55	11	that it wasn't retaliatory based on her thing that	13:30:5
2	major ones, and I can't say that it's inclusive, but	12:31:58	12	but with some oversight from Flatley, but she did,	13:30:5
3	basically I did feel that there was a favoritism	12:32:03	13	yeah, by then we had we had already entered in	13:31:0
4	towards one vendor and that I felt like some of the	12:32:08	14	into the phase where I told her the things that I	13:31:0
5	decisions that Mr. Flatley was making was not in the	12:32:14	15	believed were were wrong and and that became an	13:31:0
6	best interest of Smith & Wesson and and its	12:32:17	16	ongoing thing. There was an incident later on that	13:31:1
7	shareholders but had to do with some outside influence	12:32:20	17	caused me to talk to them again.	13:31:1
8	that did not was not in line with what the	12:32:23	18	Q. Okay. Well, we'll get to that in a minute.	13:31:2
9	normal normal fiduciary relationship of a manager	12:32:32	19	I just want to	13:31:2

1	MS. BERTRAM: Let's go ahead and take a	12:32:40	21	Q close out the initial discussions.	13:31:2
2	break. It's 12:33.	12:32:42	22	So you talked about your discussions with	13:31:2
3	MR. LEE: Okay.		23	Ms. Glica and Ms. Salvador. Did you provide any	13:31:3
4	MS. BERTRAM: How how long how long	12:32:44	24	documents to them at that point?	13:31:3
5	do you need for lunch?	12:32:45	25	A. No, not at that point.	13:31:3
		111			113
1	MR. LEE: I need to run out. So how about	12:32:47	1	Q. Did you identify any witnesses that they	13:31:3
2	like I would like maybe 40 minutes instead of the	12:32:49	2	should talk to?	13:31:3
3	normal half an hour, but whatever is good.	12:32:51	3	A. Yes, I did mention a couple of people that	13:31:3
4	Earl, you're home, right? Earl doesn't need to	12:32:54	4	had told me things that, in my view, of how I was	13:31:4
5	run out.	12:32:57	5	telling them, I didn't feel like I had, you know, had	13:31:5
6	THE WITNESS: Yeah.	12:32:58	6	all of this all wrapped up with a bow, that these were	13:31:5
7	MR. LEE: Okay.	12:32:59	7	things that they needed to look into and investigate.	13:31:5
8	MS. BERTRAM: So let's let's plan on	12:32:59	8	So I had mentioned what was told to me by, you	13:32:0
9	1:15, then.	12:33:02	9	know, different people throughout the shop and some of	13:32:0
.0	MR. LEE: 1:15 would be fine. So 45		10	those things, and but I didn't have any documents.	13:32:1
.1	minutes from now or 42 minutes from now.	12:33:05	11	So there there certainly would have been follow-up	13:32:1
.2	VIDEO SPECIALIST: The time is 12:33 p.m.,	12:33:05	12	people for them to talk to.	13:32:1

4	(Proceedings recessed)	12:33:11	14	identify during the meeting?	13:32:2
.5	VIDEO SPECIALIST: The time is 1:30 p.m.,	13:29:26	15	A. I can't really recall. I mean, it's so	13:32:2
6	and we're back on the record.	13:29:40	16	long ago. And also you have to remember that this	13:32:3
7	EXAMINATION (continued)	13:29:44	17	unfolded in a series of meetings with them, so to	13:32:3

7	restate the question.	13:33:30	7	escalate to the point where, yeah, it just might get	13:36:34
8	In your discussions with Ms. Glica and		8	out of control. So I didn't want to do more by going	
9	Ms. Salvador, did you specifically ask them to	13:33:35	9	to Dan Fontaine.	13:36:44
10	investigate the issues surrounding Larry's		10	Then after subsequent things that happened	13:36:46
11	relationship with Pioneer Tool?	13:33:41	11	between Larry and I where I did go back to them, they	13:36:51
12	A. No, it wasn't a request on my part. We had	13:33:42	12	urged me more strongly to consider the option of going	13:36:55
13	undergone a training called LRN that mentioned how we	13:33:47	13	to Mr. Fontaine.	13:36:58
14	should go to an official of the company and tell them	13:33:52	14	Q. Right. And I had asked about whether they	13:36:58
15	the things that we wanted, but it never became a	13:33:57	15	had done any investigation of of your concerns	13:37:03
16	question of me asking because before I had would	13:33:59	16	about Pioneer, and you indicated you weren't aware of	13:37:05
17	even have gotten to that point, Ann referred me to	13:34:02	17	it. Is it possible they did do some things or the	13:37:09
18	Ms. Salvador because she felt that my boss needs to	13:34:06	18	company did some things at that point to investigate	13:37:15

20	So I was unaware of it and had the impression	13:34:14	20	MR. LEE: Objection to the form of the	13:37:18

		115			117
1	of of the things you've told me. We're going to	13:34:39	1	MR. LEE: Yeah. Have the question read	13:37:37

6	keep that part quiet because we don't even know who	13:35:01	6	Ms. Glica undertook any investigation after you	13:37:51
7	might be involved.	13:35:04	7	provided this information concerning Pioneer Tool?	13:37:56
8	Q. And do you know I mean, you've	13:35:09	8	A. Ms. Glica and Ms. Salvador I I feel or	13:37:58

But they were still in that trailer. So in the process of speaking with Ms. Salvador, Ms. Glica did join the meeting after it started. She rolled her chair over from the other cubicle and became the part of the end of that meeting. I don't think it was improper in any way, because she was my designated HR representative and Kathy was her supervisor. So it	13:41:11 13:41:23 13:41:25 13:41:28 13:41:34 13:41:34 13:41:41 13:41:43 13:41:41 13:41:51 13:41:55 13:42:02 13:42:05 13:42:08 13:42:12 13:42:18	6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21	was upset with me. He was giving me commendations at the same time. It's just his style to well, I digress. Anyhow, there's a second commendation we got that I went to Mr. Fontaine to have him sign the get his approval and and get him to sign the the thing, see if it was okay to do. And he said that, since Mr. Flatley was the even though Mr. Fontaine had signed the first one, he felt since it was Flatley's department that he wanted Flatley to sign it. So when I went to Flatley's department, there are a couple of emails that reference that Larry maybe emails or texts where I note that Larry doesn't seem too happy, and when I went to that meeting, he he was unhinged, don't you ever fucking do this again, blah, blah, blah.	13:44:15 13:44:21 13:44:25 13:44:26 13:44:30 13:44:40 13:44:45 13:44:51 13:44:54 13:45:00 13:45:09 13:45:15

24	I wanted it on record that this happened, and that I	13:47:03	24	one of the things I think I may have mentioned, Jim	13:50:08

2	to offend somebody, I just don't go in that area, but	13:47:15	2	forced him to switch to a drill that Pioneer carried,	13:50:19
3	because this wasn't I felt that this anger was	13:47:18	3	and he was only getting 700 parts or 600 parts per	13:50:22

And I told Mr. Cicero, he asked me the same question you just did, and I told him that I didn't want to I wanted Smith & Wesson to handle their problem, because I didn't want the company to be hurt. If we dealt we were in a bull market where we were doing \$63 million in sales a month, shutting us down for three or four months could come into billions of dollars or millions multiple millions, and I didn't want Smith & Wesson to be hurt. I wasn't looking for anything I could get out of it. I just wanted this corrected so that it wasn't happening. Q. Q. Relative to what? I'm sorry. A. Relative to a few meetings where Mr. Suraci asked her to be present. Q. Okay. A. So Suraci was the main contact, but there were a couple of times where he asked Ms. Salvador to sit in on the meeting. Q. Okay. And so it sounds like the next interaction involving HR was the meeting with Mr. Fontaine after you reached out to Kathy Salvador on February 5th; is that right? A. Yes. Q. 17	you during that meeting?	14:26:14	17	Mr. Fontaine says it doesn't exist, it never happened.	14:29:2
18	A. We as we went over those things, he	14:26:15	18	And then only to sign this thing later in July and	14:29:3
19	was he was talking, but I was pretty angry and was	14:26:25	19	affirm it and put it in my permanent record.	14:29:3
20	just bristling. It was pretty much his floor. He was	14:26:30	20	So the things they did clearly violated HR	14:29:3
21	giving the review. I did not sign it. And that was	14:26:35	21	policy, company policy. They basically turned the	14:29:4
22	pretty much it. A pretty grim day.	14:26:46	22	whole system on its head. They allowed one individual	14:29:4
23	Q. Now going back to Exhibit 9, which is your	14:26:48	23	who was acting out in an improper way target and	14:29:5

25	that do you view that as a complete response to the	14:27:03	25	more than double producing more than double of what	14:30:0

2	Do you agree this as a complete response to the	14:27:09	2	the history of the company.	14:30:09
3	issues raised in the evaluation?	14:27:11	3	So my there was no question about the	14:30:12

5	the form of the question, but you may answer.	14:27:16	5	something, a narrative that they have placed after the	14:30:19
6	A. I don't it's like, I'm sure you you	14:27:19	6	fact.	14:30:23

10	thing.	14:27:37	10	Q. It did not try to address any of the	14:30:30
11	I just basically said, you know, pointed out	14:27:37	11	concerns that you had raised about Pioneer and and	14:30:3
12	some of the the factual errors in what he said, and	14:27:40	12	Mr. Flatley's relationship with it, correct?	14:30:3
13	did I do so in a perfect manner, leaving no stone	14:27:47	13	A. Yes. I will say that at the time of this	14:30:40
14	unturned, I wouldn't say so, there might be some	14:27:50	14	writing I was asked to write this by Ms. Glica. And I	14:30:4
15	things that I add to it today, but, again, I thought	14:27:54	15	had not met Mr. Suraci yet at this point. So my only	14:30:49
16	it was a good representation to show that that the	14:27:57	16	point of contact that I've made my SOX claims to is	14:30:5
	facts given in his review were fraudulent, he knew	14:28:01	17	Ms. Salvador. She had asked me not to mention any of	14:30:59
17	them not to be true, and he yet he said them anyway	14:28:05	18	the SOX-related claims because we don't know who's	14:31:04
		14:28:11	19	involved and we may have to find out how we're going	14:31:07

17 18 19 20 21 22 23 24	Q. And was there anything important that you left out of the rebuttal? MR. LEE: Objection to the form of the	14:28:11 14:28:13 14:28:15	21	is the words she used. So I did what I was told to do. Had I put	14:31:12 14:31:13 14:31:18 14:31:21

1	So I left it in her hands and I did exactly as	14:31:30	1	you to Mr. Fontaine; is that right?	14:34:26
2	she said. So I kept it only regarding the way I was	14:31:34	2	A. Yes.	14:34:28
3	treated, and that's what she told me to take to	14:31:38	3	Q. And you saying that you're eating crow	14:34:30
4	Mr. Fontaine. So I did as I was told.	14:31:42	4	again.	14:34:34
5	Q. And the HR issues that are raised in your	14:31:45	5	A. Yes.	14:34:34
6	rebuttal, do you have any knowledge of what the	14:31:49	6	Q. What do you mean by that?	14:34:34
7	company did to look into those concerns?	14:31:51	7	A. So, basically, the disagreement that	14:34:36
8	A. No, they didn't they didn't keep me	14:31:55	8	Mr. Fontaine and I had at the board was I believed I	14:34:40
9	apprised.	14:31:58	9	was in compliance because I had been doing the board	14:34:43
10	Q. In your discussions about your job and your	14:32:00	10	every two weeks, as I had been trained by Mr. Wnuk.	14:34:46
11	job performance, did Mr. Flatley or Mr. Fontaine raise	14:32:09	11	So my position was I am not out of date. And	14:34:52
12	any concerns about you conducting safety and 5-S	14:32:15	12	then I I told you right afterwards I contacted	14:34:57
13	audits?	14:32:21	13	Mr. Francis, and he told me, in fact, that I was	14:35:01
14	A. When they were at the second meeting where	14:32:22	14	supposed to be doing it every week.	14:35:07
15	Mr. Suraci was not not there, Mr. Flatley the	14:32:25	15	I did not know there was even a manual online	14:35:09
16	meeting ended up with Mr. Flatley mentioning	14:32:32	16	for how to do the board at that point. So he he	14:35:13
17	discrepancies on the pitch board.	14:32:36	17	showed me, he said, you can go on the mainframe and	14:35:17
18	So we went directly from Mr. Fontaine's office	14:32:38	18	you can pull up how the pitch board is supposed to be	14:35:20
19	to the pitch board, and that was in a whole other	14:32:42	19	run. And in there it says you're supposed to do it	14:35:23
20	plant. So we all walked over. Mr. Fontaine, we went	14:32:48	20	every week.	14:35:26
21	through the whole whole board. Mr. Fontaine said I	14:32:55	21	So in response to finding out that I was	14:35:27
22	was out of date on my 5-S and safety audits.	14:32:58	22	incorrect, I am somebody that will advocate strongly	14:35:30
23	And I want to correct the record that some of	14:33:03	23	on behalf of my positions. I am not going to shy away	14:35:34

4	in actuality.	14:33:21	4	boss about being right, when I found out I was wrong,	14:36:00
5	And he became upset, Mr. Fontaine, and said,	14:33:25	5	I felt like I was eating crow and apologizing to him.	
6	you know, with shoddy work like this, don't worry	14:33:31	6	And I think I I do apologize, yes, I say I'm	14:36:03 14:36:07
7	about Flatley firing you, I'll fire you myself. And	14:33:36		sorry, because I feel that I found out I was wrong and	14:36:12
,	he said I can get a a supervisor in that makes far	14:33:30	7 8	part of being an accountable adult is you advocate for	
٥	less than you that would keep this board up to date.	14:33:44		what you believe is right. If you find out you're	14:36:16
10	And, again, I looked at that as just he's going		9	wrong, you stand up and take your medicine, and that's	14:36:19

1	But I I will as far as characterizing	15:20:34	1	discussed it in the last meeting with Mr. Cicero.	15:23:59

3	but I don't know generalities, how you could	15:20:49	3	out, you're going to have to come back to work, so I	15:24:05

8	A. Not that I recall.	15:21:06	8	And so after I got back, I think it it	15:24:17

10	after your conversation with Mr. Cicero?	15:21:59	20	right, but I can't tell you for certain.	15:25:0
12	A. Seven years ago, I really don't recall. I	15:22:04	21	Q. And where did this conversation with	15:25:0
	know we went back to Ohio, but how long it took place	15:22:07	23	Mr. Cicero take place about administrative leave?	
23	I can't recall.			A. On the phone. I was in my office, and I	15:25:0
24	Q. And at some point you returned; isn't that	15:22:09 15:22:12	24 25	got a call from Mr. Cicero, and he he mentioned	15:25:1
		183			185

2	Q. And when you returned, you returned to	15:22:13	2	things that were in my that was in my office my	15:25:2

4	A. Yes, mm-hmm.	15:22:19	4	didn't want it to appear like I was being fired or	15:25:34
5	Q. And you were back at work for maybe a	15:22:20	5	whatever, so not to make a scene.	15:25:3
6	couple of days; is that correct?	15:22:23	6	So I didn't want to carry too much out of my	15:25:4
7	A. Sure. I know I came back to work. I know	15:22:26	7	office and have my guys upset, because it's all about	15:25:4
8	that there was a communication to me by Mr. Cicero	15:22:29	8	making sure that my department functioned after I	15:25:4
9	wanting to know where we were at with the separation	15:22:36	9	left. You know, don't make a big scene out of the	15:25:5

11	And at one point he said, well, if if we	15:22:46	11	So I took my a few of my things that were	15:25:5
12	can't come to agreement, you'll have to come back to	15:22:52	12	that wouldn't make it look conspicuous, and I went out	15:26:0

14	it seemed almost like I don't know what he was	15:23:03	14	Q. And do you recall anything else that	15:26:0
15	thinking. It just showed so, yeah, so from day one	15:23:06	15	Mr. Cicero said during that telephone conversation?	15:26:10
16	I was, as I told Mr. Debney in my letter to him, that	15:23:14	16	A. No. I mean, it was pretty short and sweet	15:26:1
17	my goal is has nothing to do with my personal	15:23:20	17	that, you know, he that I was being put on paid	15:26:1

2	So this may be a page that went with it, but,	15:27:59	2	the decision to terminate your employment, right?	15:29:58
3	if that's the case, it's just one one of two,	15:28:04	3	A. I knew people who were involved, yes.	15:30:05
	so	15:28:09	4	Q. But do you have personal knowledge that	15:30:09
5	Q. It's true that you don't know who drafted	15:28:10	5	they were involved, either because you saw them, heard	15:30:12
6	Exhibit 17, right?	15:28:12	6	them, or they told you?	15:30:16
7	A. No, I have no idea. Well, I would say it	15:28:14	7	A. No.	15:30:19
8	was probably Anne Bruce. It came from Anne Bruce's	15:28:19	8	Q. So who do you know was involved in the	15:30:21

10	MR. LEE: Are we talking about the first	15:28:25	10	A. Well, I would say that that	15:30:25
11	page of Exhibit 17 only?	15:28:27	11	Mr. Flatley's false reviews would make him involved,	15:30:29
12	MS. BERTRAM: No, I'm talking about the	15:28:29	12	because it was on the basis of those that I was let	15:30:32
13	second page, the termination letter dated September	15:28:31	13	go. So in in your estimation he may not be	15:30:35

15	MR. LEE: Oh, okay.	15:28:34	15	in a way he's involved because he wrote false things	15:30:43
16	A. The one I'm looking at says, "Enclosed	15:28:35	16	about me.	15:30:46
17	you'll find a notice of termination separating your	15:28:39	17	Q. So that's that's your presumption based	15:30:49
	employment," so that	15:28:42	18	on the fact that you received the evaluations, right?	15:30:51
19	Q. I'm talking about the letter that's on the	15:28:43	19	A. No. Ms. Bruce mentions in this letter what	15:30:54
	second page of Exhibit 17.	15:28:45	20		15:30:58
21	A. Oh, yes. Okay. I was on the other one. I	15:28:46	21	it was based on, and if those she mentions things	15:31:02
	was on Bates 535. So I didn't think that was the	15:28:51	22	in there, talking about my submissions as well, that	15:31:08
	termination letter. 536 is the termination letter	15:28:54	23	she has based my termination in part on my submissions	15:31:13
23	termination letter. 330 is the termination letter	-		and in part on those reviews based on, which I've told	10.01.13
	that I was referring to	15:28:58	24	year are based on false information that I are that I	15:31:10
	that I was referring to. Q. Okay. And and you don't know who	15:28:58 15:29:01	24 25	you, are based on false information that I wasn't able to attain. So that makes Flatley a part of that	15:31:19 15:31:22

3	Q. Do you know if anybody else was involved in	15:31:30	3	Q. Does he know do you know if he even knew	15:34:28
4	this decision?	15:31:33	4	that you were being terminated?	15:34:30
5	A. Well, I think Dan Fontaine is involved	15:31:34	5	A. I know that he was apprised of the	15:34:31
6	because he was he was at that last review meeting,	15:31:36	6	situation. That's exactly why I sent him the email.	15:34:34
7	-	15:31:40	7		15:34:37
8	and he affirmed that review even though he didn't look at the details of the falsehoods.	15:31:43	8	I didn't want him to say, well, gee, no one ever told	15:34:40
9		15:31:46	9	me about what was going on.	15:34:42
10	So there's an old saying that only only a	15:31:52	10	So I felt like I exhausted all of my resources	15:34:45
11	fool proceeds without knowing all the details. And I	15:31:56	11	with the people that that I had dealt with up to	15:34:51
	feel like they proceeded without either knowing the	15:31:59	12	that point, and they didn't have the backbone to stand	15:34:53
12	details or caring what they were, and that that	15:31:59		up for what's right. And so if it was going to go	15:34:53
13	tells me that it was pretense to go through that		13	down, it wasn't going to go down without him not	
14	review process if they had already determined what	15:32:06	14	having any knowledge of it.	15:35:00
15	they were going to do. They don't want to look at the	15:32:09	15	So that's why I sent him the emails, so that he	15:35:01
16	evidence to show that what they were purporting as	15:32:12	16	had no deniability saying, gee, I didn't know this	15:35:04
17	being true was false, then it's either pretext or	15:32:15	17	happened to Earl, had I known I would have said	15:35:07
18	they're foolish. Which is it?	15:32:20	18	something.	15:35:09
19	Q. And do you know if anybody else was	15:32:23	19	So I was a last ditch effort to say, listen,	15:35:10
20	involved in the decision?	15:32:25	20	if you want to stand up for what's right, Mr. Debney,	15:35:13
21	A. Everyone who was above me was involved in	15:32:29	21	this is what's happening, I'm not trying to convince	15:35:16
22	that decision in some manner, because you either stand	15:32:32	22	you it happened, I'm just telling you for a fact, this	15:35:18
23	up and say, this isn't right, or you let it occur, and	15:32:35	23	happened because I was there and I saw it, I witnessed	15:35:22
24	then they're involved.	15:32:39	24	it, he said these things, these things happened. Now	15:35:24
25	So in my mind they're involved because they	15:32:41	25	it's up to you to act or let it happen. And so	15:35:28
1	didn't stand up for me. And HR's job is to make sure	191	1	Mr. Debney was involved in this decision, if nothing	193
2	that every person is handled and and and treated	15:32:48	2	else, by his complicity.	15:35:40
3	with the same actions or how would I want to say	15:32:52	3	Q. Back to my question. Do you know that he	15:35:43
4	with the same treatment that the company policy	15:33:03	4	knew that you were terminated or a decision had been	15:35:46
5	dictates, and they did not do that.	15:33:07	5	made to terminate you?	15:35:49
6	And so HR is involved by not not keeping the	15:33:10	6	A. I think at some point, yes, he knows. He	15:35:53
7	company code of ethics and by not keeping the	15:33:16	7	has to he has to replace my position, so at some	15:35:56
8	company's system of of discipline and by subverting	15:33:22	8	point he knows that I'm gone.	15:36:00
9	the whole process and having a different set of rules	15:33:26	9	And to your point, you're trying to make some	15:36:02
10	for me than what they had for other people.	15:33:28	10	decision about when he knew, what I'm not getting	15:36:04
11	So, yes, they're involved. So other people	15:33:32	11	your distinction. But he's the CEO. He's responsible	15:36:08
12	were involved. And if if all it takes is for	15:33:35	12	for what happens under him. I brought the the	15:36:11
13	I'm not saying that evil took place I'm saying the	15:33:40	13	attention all these issues to his attention.	15:36:14
14	quote is, there's a quote, I think it's by a man in	15:33:43	14	So he's involved. He's responsible. So just	15:36:18
15	the 900s that said, all it takes for evil to exist is	15:33:51	15	like when things come to my view and I do nothing, I'm	15:36:21
16	for good men to do nothing. So if there were people	15:33:54	16	partially responsible either by complicity or by	15:36:26
17	that did not do their job in this process, yes,	15:33:56	17	action. And so, yes, everyone above me was involved	15:36:29
18	they're involved in my firing.	15:33:59	18	in my termination.	15:36:34

1	VIDEO SPECIALIST: The time is 3:46 p.m.,	15:46:14	1	to Lindco, Pioneer, and MSC. All three of them were	15:49:17
2	and we're back on the record.	15:46:19	2	doing that practice.	15:49:23
3	MS. BERTRAM: Could you please read back		3	So I made an email to Larry saying that this	15:49:24
4	the last question and response, unless the response is		4	was was bad things. I said I wasn't aware of how	15:49:29
5	very long? Maybe the last question.		5	much it really how big the issue was, but was just	15:49:37
6	MR. LEE: Just the last question.	15:46:52	6	letting him know that this is a practice that could	15:49:42
7	(The record was read by the reporter.)	15:46:52	7	lead to exorbitant charges and we're allowing them to	15:49:44
8	BY MS. BERTRAM:		8	take our cutters without	15:49:50
9	Q. You don't know when the company made the	15:46:52	9	So that one was not a Pioneer issue as much as	15:49:52
10	decision to terminate your employment, correct?	15:46:55	10	it was all three of the vendors that were in that	15:49:55
11	A. No.	15:46:56	11	RoboCrib were doing that.	15:49:59
12	Q. Did you give a response? I'm sorry.	15:46:58	12	Q. So so would it be fair to call those	15:50:01
13	A. No. I didn't know.	15:47:01	13	concerns vendor concerns without tying it to Pioneer?	15:50:08
14	Q. And you don't know the information that the	15:47:02	14	A. Yes.	15:50:12
15	company considered in making the decision to terminate	15:47:06	15	Q. Okay. And then would it also be fair to	15:50:12
16	your employment, right?	15:47:08	16	say that you had some security and safety concerns?	15:50:15
17	A. She lists a few things in her termination	15:47:10	17	A. Safety and security for the company or for	15:50:20
18	letter, but, other than that, I don't know.	15:47:13	18	myself?	15:50:23
19	Q. Now as we proceed, I want to make certain	15:47:19	19	Q. In your discussions with Mr. Cicero and	15:50:23
20	that we understand some terminology so that we can go	15:47:22	20	Mr. Suraci did you raise concerns that you you felt	15:50:27
21	through some issues kind of based in different	15:47:28	21	unsafe?	15:50:31
22	buckets.	15:47:33 15:47:34	22	A. Mr. Suraci, in our conversations, there	15:50:33
23	We talked about some HR issues, some concerns	15:47:34	23	were a number of times towards the end, the pressure I	15:50:42 15:50:45
25	about HR issues that you've raised. We'll talk about them some more as well.	15:47:40	25	was under, where I got emotional, which is not my nature, and he asked me he mentioned that he	15:50:52
		195			197
1	For concerns where you felt that you were	15:47:43	1	thought maybe I had PTSD. I think he had a military	15:51:00
2	mistreated or not treated fairly, would you be	15:47:46	2	background. I don't know anything about, you know,	15:51:04
3	comfortable calling those the HR concerns?	15:47:51	3	the symptoms of that.	15:51:10
4	A. For the purposes of this talk, that would	15:47:54	4	But he asked me at that point, because I had	15:51:13
5	be fine, but if I feel that those HR concerns were	15:47:57	5	gotten emotional, I just got choked up, if I felt in	15:51:17
6	predicated by vendor-related concerns, then as long as	15:48:04	6	danger, and I said yes. I even mentioned it to, I	15:51:25
7	you make the distinction that they're interrelated,	15:48:10	7	think, Anne Bruce in an email that, by letting	15:51:33
8	but just for the purposes of knowing which things	15:48:17	8	$\ensuremath{Mr}.$ Flatley know of my submissions, that she would put	15:51:39
9	we're talking about, you can label it whatever you	15:48:20	9	me in danger.	15:51:42
10	like.	15:48:23	10	So yes, I get what you're saying. That	15:51:45
11	Q. Okay. And we have another bucket, which is	15:48:23	11	category would be safety issues.	15:51:52
12	allegations of inappropriate conduct with respect to	15:48:27	12	Q. Okay. So there's three buckets, then	15:51:55
13	vendors, right?	15:48:30	13	vendor concerns, HR concerns, and safety concerns. Is	15:52:00
14	A. Yes.	15:48:31	14	that fair?	15:52:03
15	Q. And those concerns center on a particular	15:48:32	15	A. Yes.	15:52:04
16	vendor that's Pioneer Tool, right?	15:48:36	16	Q. And while you were working for the company,	15:52:04
17	A. I think they were the biggest offender, but	15:48:38	17	did you collect evidence relating to those concerns?	15:52:08
18	I point to an email I made to Larry where vendors were	15:48:46	18	A. I collected I collected documents	15:52:12
19	taking they were all taking tools that	15:48:52	19	because there was a point where my computer had been	15:52:22
20	Smith & Wesson purchased. After they were vended out		20	compromised and documents were deleted. If it were	15:52:27
21	and they were dull, instead of going back to my	15:49:01	21	not for a just a coincidental circumstance, that	15:52:32
22	department to sharpen, the vendors were permitted to	15:49:04	22	that computer had been basically, it just died, and	15:52:42
23	take those back out of the shop themselves, so no	15:49:07	23	so IT gave me another computer, but backed up	15:52:47
					15:52:52
24 25	accounting was made for those and they were able to resell them over and over again. That issue pertained	15:49:10 15:49:13	24 25	everything that was on the hard drive and put it in a file on that hard drive.	15:52:56

1	After my office had been broken into, it was	15:52:58	1	Q. I think you're reading way too much into my	15:56:14
2	made aware that or I found Mr. Suraci asked for	15:53:01	2	question, so let me let me go at this in a	15:56:17
3	me to send him emails that corroborate the things that	15:53:05	3	different approach. You produced documents in the	15:56:20
4	I told him. So when I looked for a number of them,	15:53:10	4	OSHA proceeding, correct?	15:56:23
5	they weren't there. And I knew that they existed, and	15:53:13	5	A. Yes.	15:56:24
6	it took some time before I realized that they were on	15:53:17	6	Q. And you also produced made some	15:56:25
7	that backup. So I emailed him which ones had been	15:53:21	7	supplemental productions in this case, correct?	15:56:28
8	deleted.	15:53:26	8	A. Yes.	15:56:30
9	And so from that point on, any interaction I	15:53:29	9	Q. And in those productions there were emails	15:56:30
10	had with Mr. Cicero and Mr. Suraci, I would tell them	15:53:32	10	and also vendor documentation and other documents	15:56:38
11	I'm deleting this email and then I would delete it	15:53:37	11	related to your work for Smith & Wesson, correct?	15:56:42
12	just because, if Mr. Flatley broke into my office and	15:53:40	12	A. Yes.	15:56:45
13	found that email, he would know I was informing on	15:53:43	13	Q. And how did you get those? How did you	15:56:46
14	him, and that would be a scorched earth policy.	15:53:46	14	obtain copies of them?	15:56:50
15	So I was protecting the documents for	15:53:51	15	A. Some, like you said, I forwarded to my	15:56:52
16	Smith & Wesson's sake, but by saying it's evidence,	15:53:55	16	wife. Others I had in my briefcase. And I may have	15:56:56
17	that makes it sound like it was all predicated on some	15:54:01	17	been carrying those home because I didn't want them to	15:57:05
18	legal proceeding for my part. Up to the day I left, I	15:54:07	18	disappear. But when I was told, you're being placed	15:57:08
19	was still offering them I even told Anne Bruce, I'm	15:54:15	19	on leave and you're to leave the I wasn't even	15:57:11
20	willing to forget all this and come back to work, and	15:54:20	20	allowed to finish the day out, just pick up your stuff	15:57:16
21	she seemed amiable to that.	15:54:23	21	and leave some of those documents were in my	15:57:19
22	So, again, I just want to stress that this was	15:54:27	22	possession in that briefcase when I left.	15:57:22
23	not evidence from a standpoint that I'm looking to sue	15:54:31	23	It wasn't forethought in taking them. It was	15:57:25
24	somebody or whatever. It was just a way to protect	15:54:38	24	just I didn't want to leave them in that office if my	15:57:28
25	those documents because, again, in that LRN it said	15:54:43	25	office was being broken into. They had purchased a	15:57:31

4	critical evidence in your office until it was secured.	16:05:08	4	things.	16:08:32
5	Why did you consider the old invoices to be critical	16:05:10	5	And, to me, those are far more smoking guns	16:08:33
6	evidence?	16:05:13	6	than some company that got tools reground for free,	16:08:36
7	A. Because there were there are evidences	16:05:15	7	but if he needed some proof that some of these	16:08:41
8	in there that of the things that Leo had discussed	16:05:20	8	companies actually did get a sweet deal because of	16:08:45
9	of vendors being able to get a sweet deal from	16:05:27	9	other things he found, then those might be important.	16:08:47
10	Smith & Wesson under the prior regime. And so the old	16:05:34	10	Q. Did you ever tell Mr. Cicero that you had	16:08:55
11	invoices, there are a number of them in there, that	16:05:41	11	these old invoices?	16:08:58
12	said "no charge."	16:05:44	12	A. No, I didn't. And I I to be honest,	16:09:00
13	Now can a company that's a publicly owned	16:05:48	13	didn't even at the time I left, I hadn't even	16:09:05
14	company who has the authority to say there's no	16:05:53	14	thought about them. It was something I put in my	16:09:10
15	charge for this? And that's so did I know they	16:05:57	15	briefcase at the time of a break-in. I threw stuff in	16:09:12
16	were evidence? No. I just thought they were possible	16:06:02	16	that day into the briefcase that I could think of, and	16:09:16
17	evidence.	16:06:04	17	I kind of forgot I had them, to be honest. I was	16:09:21
18	But, again, at this point I felt like the	16:06:05	18	actually surprised that I had them.	16:09:25
19	people who were handling that investigation probably	16:06:07	19	Q. And and all of those were original	16:09:27
20	had gotten all they needed on their own. But if they	16:06:15	20	documents, right?	16:09:30
21	need this evidence as part of that ongoing	16:06:18	21	A. I don't know that for a fact. Some of them	16:09:32
22	investigation, I wanted to make sure it was secure.	16:06:23	22	looked like they were mimeographs but or, I mean,	16:09:38
23	And so that's why I that's why I had it in my	16:06:26	23	Xeroxes but it could have been that's how Stanley	16:09:42
24	briefcase.	16:06:30	24	had stored them as a maybe he made a copy of an	16:09:45
25	There isn't anything, as it turns out, I feel,	16:06:32	25	actual invoice, but I didn't make copies of them.	16:09:50
1	groundbreaking in there, but I didn't read through	207	1	Those were actual some of them appeared to be	209
2	that whole thing. I just carried it around with me	16:06:41	2	copies of an original, but I didn't make the copy.	16:09:56
3	because I didn't want that to fall into anybody else's	16:06:44	3	Q. And we looked at some notes that you	16:10:00
4	hands. I wanted it to be public record of who got a	16:06:46	4	prepared while you were employed by Smith & Wesson,	16:10:03
5	sweet deal and who got tools for free. And I I	16:06:50	5	right?	16:10:06
6	didn't think it was right to just leave it there.	16:06:53	6	MR. LEE: You mean at the deposition today?	16:10:08
7	Q. Were there other items of critical evidence	16:06:56	7	MS. BERTRAM: Yeah, at the deposition	16:10:10
8	that you took from that office so that it wouldn't be	16:06:59	8	today.	16:10:11
9	destroyed or removed or taken from you?	16:07:04	9	Q. We've been looking at some handwritten	16:10:12
10	A. No, not really, none that I can think of.	16:07:06	10	documents that you prepared while you were employed by	16:10:15
11	Q. Did you provide the old invoices, whether	16:07:08	11	the company, correct?	16:10:16
12	originals or copies, to Mr. Cicero in connection with	16:07:12	12	A. Yes.	16:10:17
13	his investigation?	16:07:15	13	Q. Did you also have something that you	16:10:17
14	A. No. Well, he if he had required that	16:07:16	14	referred to as your "Rain Man" journal?	16:10:20
15	if I had found something in there that I felt to be of	16:07:23	15	MR. LEE: What journal? What was that?	16:10:26
16	a suspicious nature, I would have supplied it to him.	16:07:32	16	MS. BERTRAM: "Rain Man."	16:10:28
17	Well, to be honest, I felt like the last few months I	16:07:35	17	MR. LEE: Did you say like Dustin Hoffman	16:10:32
18	was dodging attack after attack from Mr. Flatley, and	16:07:41	18	"Rain Man"?	16:10:36
19	I really didn't have as much time to devote to the	16:07:46	19	MS. BERTRAM: Yes.	16:10:37
20	remember the three buckets I had so much going on	16:07:51	20	MR. LEE: Okay.	16:10:37
	in the HR bucket that I didn't give have as much	16:07:54	21	A. It may have been something I said in jest,	16:10:37
21			22	but that would be "Rain Man" would be referred to	16:10:40
21	time to think about what is in the Sarbanes bucket.	16:07:58		but that would be Train man would be followed to	
21 22 23	time to think about what is in the Sarbanes bucket. So I my focus was over here, and I didn't	16:08:04	23	in the part of the book where he Dustin Hoffman has	16:10:44

7	Q. You had retained counsel by July of 2014,	16:11:28	7	A. It's my understanding they had.	16:14:02
8	right?	16:11:32	8	Q. And you knew at the time that The	16:14:04

12	A. Yeah, Tani Sapperstein.	16:11:40	12	Q. You concluded, you believed that The	16:14:16
13	Q. Sapperstein? Okay.	16:11:42	13	Employment Law Group was considered one of the top law	16:14:20

16	about 14 days, right?	16:11:51	16	A. That was my belief.	16:14:25
17	A. No, actually about a day. My first meeting	16:11:52	17	Q. Okay. And, in fact, you said that you	16:14:26

20	MR. LEE: Whoa. I don't want you to	16:12:05	20	A. Yes, I said that.	16:14:3

1	new day, and that every decision I make will be on	16:23:20	1	because we wanted to look at at their machine that	16:26:55
2	behalf of Smith & Wesson. So if you offer the best	16:23:25	2	we were thinking of purchasing. But in going there,	16:26:58
3	service and the best price, you can count on me to act	16:23:27	3	we saw that they were I liked how the shop was set	16:27:03

5	So from that day on, it was my was caused	16:23:39	5	So for the Houlton project, we had a huge	16:27:10
6	me to suspect something is not right, that someone is	16:23:46	6	order. I'd just be guessing at the number. Let's say	16:27:14
7	billing eight days a week, and for the company to	16:23:49	7	it's a \$60, \$70,000 order. We met with Larry Flatley,	16:27:18
8	whistleblow on the other company, they then in turn	16:23:52	8	myself, Andrew Dziobek, Mike Jurga, myself, and	16:27:25
9	lost all their work.	16:23:55	9	Derrick Hedley, went to most of those meetings, but we	16:27:35
10	So that's within the first week. So that would	16:23:56	10	would meet daily on the Houlton project towards the	16:27:39
11	be the first inclination I had that something was	16:23:59	11	end to make sure they had enough tools and everyone	16:27:41
12	wrong. And I told that to Mr. Cicero. And I can't	16:24:03	12	was on the same page of what we were ordering, what we	16:27:44
13	recall at what point I got baseball tickets sent to my	16:24:11	13	were buying.	16:27:47
14	house, but, you know, as things unfold, you get people	16:24:15	14	So it was determined we needed a certain tool.	16:27:47
15	inducing you to sending you things that you've	16:24:22	15	We said Rhode Island Carbide does those for us,	16:27:50
16	never asked for and it's not proper for you to take,	16:24:29	16	they're cheaper from them. They were charging 39.	16:27:56
17	or inferring that you're going to receive something at	16:24:33	17	Our in-house price was 46. Rhode Island Carbide was	16:27:59
18	a banquet just because you're Smith & Wesson, those	16:24:36	18	doing them cheaper than what we could ourselves, but,	16:28:05
19	are things that can't be ignored.	16:24:40	19	again, we couldn't even do them ourselves because of	16:28:09
20	And at at some point it gets to a tipping	16:24:44	20	the volume of work required.	16:28:11
21	point where you say, you know, everything that you	16:24:48	21	That very next day I got an email from Derek	16:28:13
22	hear is not necessarily true, and everything that you	16:24:52	22	Upson stating he'd like to bid on those type of tools.	16:28:17
23	hear is not necessarily some big conspiracy, but at	16:24:55	23	He said he saw them being loaded in the RoboCrib up in	16:28:20
24	some point those things hit a tipping point where the	16:24:59	24	Houlton, Mass. It was a strange email, because the	16:28:25
25	balance shifts and you think this is not right and	16:25:02	25	only time that Derek Upson himself ever solicited work	16:28:28
		219			221
1	something is should be done about it. And, you	16:25:07	1	was he has a salesman and he has a representative, Tim	16:28:32
2	know, so you asked for the first point, that's the	16:25:12	2	Hebert, his only job is to represent Pioneer to us.	16:28:37
3	first point.	16:25:14	3	He is their liaison.	16:28:42
4	Q. And when did you hit that tipping point?	16:25:16	4	So he didn't go through them, but Upson wants	16:28:43
5	A. For me, the the banquet thing at	16:25:21	5	that type of work. He bids on it and bids \$19. It's	16:28:46
6	Pioneer, the barbecue, was the big point. So that	16:25:30	6	strange in that they had produced the tool before	16:28:53
7	that was pretty much it for me. But, again, it's like	16:25:36	7	Rhode Island Carbide started doing it at \$65 apiece,	16:28:59
8	certain things it's a gradual thing, but if if I	16:25:43	8	and he's just saying, I'd like to bid and here's my	16:29:05
9	were to define one point, it was right around that	16:25:51	9	bid, \$19, under the price that it can even be produced	16:29:08
10	time.	16:25:55	10	for. He's losing money on it.	16:29:14
11	Q. In your discussions with Mr. Cicero you	16:25:55	11	And I asked Mr. Cicero. This is suspicious,	16:29:16
12	raise concerns about a company called or a vendor	16:26:00	12	because why would a company, without any knowledge	16:29:18
13	called Rhode Island Carbide; is that right?	16:26:02	13	that somebody else is getting this tool, lower their	16:29:21
14	A. Yes.	16:26:04	14	bid from \$65 to \$19 unless he's been told there's this	16:29:26
15	Q. And what was the concern that you raised	16:26:04	15	huge order out there he can get, which, if he was,	16:29:32
16	with Mr. Cicero about Rhode Island Carbide?	16:26:06	16	violates company policy. You're not allowed to tell	16:29:36
17	A. I had said that there was a there was a	16:26:11	17	people that someone else is getting work so you can	16:29:39
	vendor that I just part of the Houlton project was	16:26:21	18	bid on it.	16:29:43
18		16:26:24	19	So I looked at that as an unfair trade practice	16:29:44
	a \$60 million expansion. So we had to get a lot of			and violated company policy to tell Mr. Upson that	16:29:50

4	MS. BERTRAM: It's Exhibit 25, and I was	16:31:43	4	Q. Okay. Okay. And that's the solicitation	16:34:50
5	just reading off the Bates numbers	16:31:45	5	that you've described in your testimony, correct?	16:34:52
6	MR. LEE: Okay. Got it.		6	A. Yeah, that's it.	16:34:59
7	MS. BERTRAM: on the documents that are	16:31:46	7	•	16:35:06
8		16:31:47	8	Q. And in your response you agreed to let him	16:35:08
0	grouped together in Exhibit 25.	16:31:52	9	bid for the items and identified exactly which tools	16:35:11
10	MR. LEE: Got it.		10	you were looking for, correct?	16:35:13
10	Q. Now, first, the first first set is	16:31:52		A. Yes.	
11	the first couple pages are an email communication	16:31:58	11	Q. And then in the email that you forwarded to	16:35:13
12	between you and Pioneer Tools, right?	16:32:00	12	Mr. Suraci, did you describe all of the concerns that	16:35:19
13	A. Yes. Well, at the bottom of the page. At	16:32:08	13	you had with respect to this potential transaction?	16:35:22
14	the top of the page, it's a forward of mine to Ed	16:32:12	14	MR. LEE: Objection to the form of the	16:35:27
15	Suraci, correct?	16:32:20	15	question, but you may answer.	16:35:28
16	Q. That's right. So but if you go to the	16:32:21	16	A. I don't know that I I expressed all of	16:35:30
17	bottom of page 215, there's an email there, at 3:55	16:32:24	17	my concerns. So my only issue is with the term "all."	16:35:33
18	p.m., where you requested from Mr. Upson some quotes	16:32:31	18	I expressed my concerns with him and some of the	16:35:39
19	for tools at Houlton, right?	16:32:35	19	concerns off the top of my head that I, first of all,	16:35:47
	A. That was after Mr. Upson solicited me that	16:32:37	20	don't think he should have been aware that we were	16:35:50
20		16:32:42	21	bidding that tool out, but now that he did know, I had	16:35:52
20	he would like to bid on those tools. He shouldn't			no problem with him hidding the tool, but again I	16:35:55
	have known even known we were we had those tools	16:32:45	22	no problem with him bidding the tool, but, again, I	
21	have known even known we were we had those tools	16:32:45 16:32:48	23	posed the question, what would cause a business to	16:36:00

1	amount.	16:36:13	1	an SAP form printed out that sometimes we needed	16:39:27
2	Q. And that's your speculation, correct?	16:36:15	2	to to keep reference in the office, it would be in	16:39:30
3	A. It's a question based on human nature and	16:36:20	3	a file like I described, that old invoice file, that	16:39:33
4	22 years in the business. What would cause a company	16:36:26	4	let's say they would bid on a job that I didn't I	16:39:39
5	to reduce their price by that much, from \$65 to \$19?	16:36:28	5	wasn't aware that they had actually produced for us	16:39:43
6	Q. Let's look at the second email, the second	16:36:36	6	before, I could leaf through and find out, oh, okay,	16:39:45
7	group of emails in Exhibit 25, and it starts on page	16:36:39	7	they made this, so the price should be in this range.	16:39:48
8	166 and goes to 167.	16:36:46	8	But I keep that just so that I can't we	16:39:51
9	A. Yes.	16:36:49	9	had 13,000 different tools. If I were to bid a tool	16:39:55
10	Q. At the top that's an email that you	16:36:49	10	to Rhode Island Carbide, how do I know that they're in	16:40:00
11	forwarded to Mr. Suraci, correct?	16:36:51	11	the ballpark of what someone else charged. It would	16:40:04
12	A. Yes.	16:36:53	12	be that file. So that's the file I had that showed	16:40:08
13	Q. And you said that the price that Pioneer	16:36:54	13	that we had been buying that tool from Derek Upson for	16:40:11
14	had charged before was \$65, correct?	16:36:59	14	\$65.	16:40:16
15	A. Yes.	16:37:02	15	Q. What was the name I mean, what was the	16:40:17
16	Q. And the basis for the \$65 number was that	16:37:03	16	name of the document within SAP, do you recall?	16:40:19
17	screenshot that had been provided to you by Erica	16:37:07	17	A. No, but it's it was just a common	16:40:24
18	Matos, correct?	16:37:10	18	purchase order document.	16:40:29
19	A. No, that wasn't the basis for it. The	16:37:11	19	Q. And did you print it out?	16:40:32
20	basis for it was I actually had that document or that	16:37:13	20	A. I already had a copy of it that I would	16:40:36
21	quotation in my hand at the time I called Mr. Cicero	16:37:18	21	imagine Stanley had printed out and it was in that	16:40:40
22	and told him that I have the the bid in my hand,	16:37:22	22	file. So at the time we were soliciting tools to be	16:40:44
23	because Mr. Cicero speculated, well, possibly Derek	16:37:28	23	made outside at Rhode Island Carbide, I probably	16:40:49
24	was soliciting a tool that he hadn't made before. And	16:37:32	24	referred to that document to know whether or not	16:40:55
25	I said, no, he's made it, and he charged \$65.	16:37:36	25	their their price was even in line.	16:40:57
1	And I posed the same question to him I just did	227	1	If Pioneer's was cheaper, I wouldn't have given	229
2	to you. What would cause a business to go from that	16:37:43	2	the order to to Rhode Island. So I just used that	16:41:01
3	to that? He said, let's take this up again tomorrow	16:37:45	3	to confirm that Rhode Island's price was good. If	16:41:05
4	morning. And that night my office was broken into and	16:37:49	4	Pioneer's was better, they would have got the work.	16:41:13
5	that document was taken.	16:37:53	5	So that was the nature of why I had it in the	16:41:15
6	So this is a document to prove that so when	16:37:58	6	office. So I didn't print it out specifically for	16:41:17
7	we I tried to get another copy of it off SAP, it	16:38:03	7	this issue. I actually already had it in the office.	16:41:20
8	didn't exist. SAP says, we don't have a record of you	16:38:07	8	Q. I'm confused. I thought you said that you	16:41:25
9	ever ordering that tool from Pioneer, especially at	16:38:10	9	found it on SAP; is that right?	16:41:27
10	\$65. They have no record of that tool.	16:38:17	10	A. No. It's an SAP document, so it had to	16:41:30
11	So I'm frustrated. So I talk to Erica Matos in	16:38:20	11	come out of SAP because an SAP document looks	16:41:34
12	accounts payable. Accounts payable has record that	16:38:26	12	different than an AS400 document.	16:41:39
13	they paid the invoice. And I forwarded it to	16:38:29	13	Q. So it was a document from SAP that somebody	16:41:42
	Mr. Cicero to show him that the database in purchasing	16:38:32	14	else had printed out.	16:41:48
14			15	A. Yes.	16:41:50

So did you talk with Mr. Dziobek about Pioneer's pricing? A. Yes, I did. Q. And when did you speak with him? A. Right after this happened. I couldn't after the document was missing from my desk, I tried to pull it up on SAP. Because it was a fairly new system to all of us, we I thought, well, maybe I'm doing something wrong. Now, during your prior deposition, we 23 talked about your initial meeting with Mr. Suraci in 24 February of 2014. After that meeting, did you 25 provide to Mr. Suraci some emails with information

A. We had been purchasing on a piecemeal basis. When Pioneer could not perform, we would order tools from them throughout our time there. But it was on a one- and two-piece basis.

Q. Right. Did the -- did the purchasing increase after they came to the facility for the meeting?

MR. LEE: Objection to the form of the question, but you may answer.

- A. I -- I can recall many documents. There were many documents. And we have a quite extensive record of my emails and documents I provided. And I would just refer to those.
- Q. And do you know whether the company ever investigated or looked into your concerns regarding purchasing from Pacific?
- A. My role as a -- as a person that cared about Smith & Wesson was to bring to their attention the problems I saw. I did not feel it was my duty, nor do I feel that they felt it was their duty to inform me what they were investigating and were not investigating. So I had no scope of what they were doing on their end.
- Q. So if they did an investigation, you don't know what they did or what they concluded, right?

To whom did you provide documents relating to the situation with Pacific?

- A. Tom Walsh, Bob O'Donnell, Josh Bury, James Peele. And those are some I can recall. There may be others. But off the top of my head, that's the ones I can think of.

Is it your -- is it your view that by purchasing tools from Pioneer as opposed to Pacific that Smith & Wesson was violating Sarbanes-Oxley?

MR. LEE: Objection to the form of the question, but you may answer.

- A. We had millions of dollars of purchases. Not every purchase would fall under that category. There are some purchases that would fall into the category of being contrary to the interests of Smith & Wesson that were purchased from Pioneer.
- Q. Again, is it your view that the purchasing of tools from Pioneer Tool over Pacific was one of those purchases that was a violation of Sarbanes-Oxley?

MR. LEE: Same -- same objection, but you may answer.

- A. It's possible that those were motivated by external motivations other than the best interests of Smith & Wesson.

Q. And you indicate that there were -- that -that individuals may have been motivated by external interests. Who do you claim was improperly motivated; which individuals with respect to Pacific?

 A. You -- you infer that I made judgments as to who the parties were that may have been improperly influenced. My -- my goal in bringing this to management isn't to impose my beliefs on them, but just to communicate facts that I see and conversations and things that were told to me.

I was told specifically that individuals were involved. I passed that information on to -- to my bosses and in some cases even to some of the people that later were implicated by things that I was told. So I just did my best to do what was best for Smith & Wesson.

My focus was purely on tooling procurement, which was my department, that I felt like there are some forces below the surface that are motivating these purchases that are not -- clearly not in the interests of Smith & Wesson and that it behooved management to do the investigation to find out why those purchases were made in the manner they were.

So, again, though I might have inclinations by certain things that I witnessed every day, my focus wasn't on who was -- who was profiting and who was changing things; more so just to make sure that if the practice stopped and we started purchasing in the best interests of Smith & Wesson, my job is done.

Q. What were the -- in your view, what external interests were motivating the individuals with respect to purchasing Pioneer over Pacific?

A. I think Smith & Wesson had a pay-to-play society where gifts were being given. I had told Mr. Cicero about TVs being delivered to individuals. I made a lot of submissions that talked of different

- A. Yes, many.
- Q. What other evidence?
- A. Well. I --

MR. LEE: Objection -- well, objection to the form of the question, but you may answer.

A. I gave accounts of -- direct accounts of what people told me. I also told Kathy Salvador and Ann Glica of an interaction with a Pioneer driver who attempted to deliver a gift to Mr. Flatley. He said so. And it was -- now, I did not see him take that, but coupled with the comments that were made by Mr. Flatley just days before that they would get preferential treatment at a drawing during the time of EASTEC, that the significance in mentioning it was it showed a quid pro quo between gifts and

while other vendors did.

Q. Other than gifts and the failure to provide refunds, is there any other evidence that you can point to to support your assertion that there were improper motivations with respect to purchasing from Pioneer over Pacific?

A. There are -- I had mentioned some specific.

There are also -- those are micro, and there are also macro evidences that would indicate that the purchases even from a far view don't pass the smell test

When -- as Mr. Smith mentions that Pioneer was offering a 16 percent discount and that MSC, which had a larger capacity to deliver quicker had a 24 percent discount, it does not pass the smell test that given the numbers I was provided, which I have no way of attesting to whether they're correct or not, that \$4.4 million in business was given to the company that had the smaller discount and that at the time I arrived, I was told that MSC was receiving \$20,000 a year in purchases where if you just do the simple math, they would save nearly a half million dollars by switching their purchases to the entity that had the largest discount.

That's against every business practice that

Q. Other than the quid pro quo between gifts and purchasing, are you aware of any other evidence that supports your view that there were inappropriate or -- let me strike that.

Other than the kid -- quid pro -- quid pro quo environment where employees were given gifts, can you point to any other evidence that supports your view that employees were motivated by external forces?

MR. LEE: Objection to the form of the question, but you may answer.

A. Again, we -- I point to the email record that we have that document many, many incidences where purchases and/or times when there should have been refunds to Smith & Wesson for poor quality, incorrect delivery that should have been refunded back to Smith & Wesson that were not.

So it's not just purchases. It's everything having to do with the -- the purchase, value stream where you buy and you receive what you had requisitioned. And -- and in many cases, we did not ask for certain vendors to pay for their mistakes

A. Again, I'd point to the -- to the record of the documents we have.

- Q. Anything else that you can recall as you're sitting here today?
- A. You're -- you're asking me to recall to memory some 2,000 documents. While I can speak with specificity to -- to many, if not all, of those documents, for me to recall by memory all thousands

- Q. Okay. Was anybody else there?
- A. Mike Jurga may have been involved, but I --I don't know if he was or not.
- Q. Okay. And did you document your discussion with Mr. Hynes; did you take notes?

A. I was standing inside the door of my office. I -- I did not have the ability to take notes at that time. Mr. Hynes was standing and I was standing. We were off to the left of my office. I'm not sure if Mike Jurga was sitting in the chairs of my office. It's my recollection he may have. But I did document by telling Mr. Cicero and Mr. Suraci.

And I think you'll find that I have email records to Mr. Suraci explaining the situation to him. He was HR, so he didn't understand purchasing much, so I think there is a detailed explanation of how the process went to him.

Q. So you said that you had the conversation with Mr. Hynes. You looked at the price within the SAP. Did you do anything else to investigate your concerns about purchasing from Pioneer or the bidding Q. And what documents did you show them?

A. You have copies of all of them. There's quite an extensive email record of what we -- I gave them. And some things that weren't document -- or were not emails that were items like gift cards or baseball tickets, they were provided with other evidences other than emails, but they're referred to in the emails.

- Q. I'm talking about the -- the situation with Hassay Savage and the -- and the -- and the pricing and dual sourcing other than your conversation with Karl Hynes and the price in SAP. Did you -- and some emails. Did you provide any other documents or information to Mr. Cicero or Mr. Suraci?
- A. Other information other than what I told them? No, I gave them my information. A lot of it was verbal and others were emails.
- Q. And do you know what Mr. Cicero or Mr. Suraci did in connection with their investigations with respect to the Hassay Savage
 - A. I was provided information in Mr. Cicero's investigation report claiming that I was incorrect on certain issues. But he was misinformed. He had not researched diligently enough to have a good scope of

282

what he was even saying.

Q. And what leads you to believe that he hadn't researched diligently?

A. He said he had in that investigation report, but by virtue of the context -- or content of what he said, he hadn't -- obviously, he didn't research enough.

Q. And what -- what specifically do you contend he did not research sufficiently?

 A. He gave the price like a picture in a moment of time and said, No, it was this. Well, that wasn't -- that price was up here, went down, went back up a little bit. It was all over the place as that negotiation went on. He's arguing that point. He said also that respect -- we were comparing apples to oranges in that Pioneer's was a consignment order. If he reads the -- if he reads what the bid says, so was -- so was Hassay Savage's. So he was -- he was in error in what he said.

Q. You said if -- if he had read -- I think you said a vin? Is that right? I think I missed a word that you said. You said if he had looked at it, he would have seen that Hassay Savage was consignment also. What was the word that you used?

A. I don't know. You can ask the reporter to

by Pioneer -- let me just strike that.

Did you do anything else to investigate your concerns about Hassay Savage?

A. Again, it's not my view that it's my role in having concerns for my company to be the sole investigator for what was going on within the company. I trusted those within the company to do their job as well. It was my job to -- to point out to them there was something that was not being done correctly or in the best interests of Smith & Wesson. And I trusted people to do their job to investigate. I didn't feel -- my job was to make sure that my department produced and that -- that was the things I was hired for. I wasn't hired to investigate impropriety. That's what HR, legal, and Mr. Suraci were tasked to do.

Q. Did you provide any other information to Mr. Cicero or Mr. Suraci other than your conversation with Carl Hynes and the price that you identified in SAP?

A. I did many things. I showed them documents. I gave them things. So you're asking did I do anything than -- other than tell them. Yes, I did everything I could to make sure they had the information.

but they didn't refund any of the money that we had spent to vend out all of these cutters. So the price that they got for -- for making the tools, we -- we paid them twice. And I was told it wasn't my concern by Mr. Flatley. That wasn't being done for other vendors and it should not be a standard business practice.

So in respect to Mr. Cicero, I don't know what he did to investigate. All I can tell you is his conclusion was misinformed. He said I should not have fixed them, but I should have given them back to the vendor. When every tool that we have is bad, they have to have -- it would take days or even weeks to send it back to a vendor and have them repair the tools. We couldn't go without tools for weeks. So I have to -- and there are documents that enforce -- or reinforce what I'm saying -- by Mr. Fontaine that said no action is taken -- or should be taken that puts production in jeopardy.

So I was required by my job to repair some of these tools where we accepted the cost and send the balance of the tools back to Pioneer for repair. They should have been returned at no charge to us because we had -- we had sent them tools that they sent us incorrectly. They re -- should repair them

a charge. So we vended them all out and when we return them to the vendor and they just restock the vending machine, then now they're ready to vend again a second time and there's going to be a second charge for each of those tools.

We need to receive a credit memo from Pioneer stating that you were not charged for those tools that you initially vended that were incorrect. We received no such credit memo, and when I brought it to Mr. Flatly's attention, he said not to be concerned with it.

BY MS. BETRAM:

Q. And do you have any documents that support your belief that Smith & Wesson was charged twice for these defective tools?

Q. And did -- who told you that -- that Smith

A. Andrew Dziobek.

Q. And when did he tell you that?

A. At the time that those tools came back in. I checked to see if we were issued a credit. He said we had not. I told Mr. Flatley, and Mr. Flatley said not to be concerned with it.

Q. And -- and I'll -- I'll ask the question again. Did you ever see any documents that showed that Smith & Wesson was charged twice for those

MR. LEE: Objection to the form of the question. Asked and answered. But you can answer it again if you want to.

A. In a general sense, yes. We're -- we're issued by budgetary measures what is vended out and charged to our departments accordingly. And that goes on the pitch board.

So, yes, there were documents that would indicate that we were charged for them just as the program works that every time something is vended out, you get charged for it.

Now, the way the system works is did we

and give them back to us at no charge.

They should also refund all of the vends for cutters that were made incorrectly. That -that's business. You provided an inferior product that did not work. It's your job to refund the money.

receive a credit for the tools that were mis-vended because they were defective. And that source would be with Andrew Dziobek. So just as I said on the pitch boards, every vend would be summarized on the monthly budget.

Also, any credits would be summarized on the monthly budget. So not only did Andrew Dziobek tell me that information was on the pitch board, it would be public consumption. So did I have documents, documentation, that no -- nothing had transpired? Everyone in that plant could see documentation that no credit was given if they so

A. I did not remove the tools from the RoboCrib. The department themselves vended all of the tools out trying to find a good one. So I didn't vend them out. The department that was using them vended them out.

They then are the property of Smith & Wesson. So I repaired them so that they had tools to do and sent the balance back to Pioneer. Those are now Smith & Wesson tools. Those should not be placed back in the vending machine because that would indicate that they were the property of Pioneer. And each time they were vended then, there would be a charge, us buying it a second time.

- Q. Which department vended out the defective tools?
- A. I believe that was slide department, but six years removed, I -- I'm not 100 percent certain.
 - Q. Which employee vended them out?
- A. That wouldn't have been of my -- that would not be something I knew or would know. They were vended out over many shifts or it could have been multiple shifts. That isn't something I would ever be made aware of. Mr. Dziobek had that information, and he would notify me when one specific individual

defective and that none of them worked, we -- we sent those back to Pioneer. And that -- that was part of my job -- job function.

But they need some tools to continue pro -production while those tools are being sent back to
Pioneer and being repaired by Pioneer. So I fixed in
my department a number of tools so production could
continue while he sent the rest back.

Does that answer -- I'm not a hundred percent sure what your question was.

- A. No. Just what I've described.
- Q. You indicated that you felt that

Mr. Cicero's conclusion was misinformed. After you received his investigation report, did you provide any additional evidence to him or provide any additional information to him concerning this issue?

A. I was provided his document when I was on paid leave and I did not have interaction with Mr. Cicero after I was placed on paid leave. They had shut down my email and my phone, and so I did not interact with Mr. Cicero after the fact.

I know that it was my job to report things that I saw that I felt were harming Smith & Wesson. I did so, and I don't know what Mr. Cicero did to investigate. All I know is his conclusions are in contrast to what the facts are. They -- the conclusions he makes are incorrect and many of the assertions he makes are incorrect.

So what he did in his investigation to arrive at the wrong conclusions, I can't say. All I can tell you is that he has errors and false statements made in his conclusion that -- it was either an error in judgment or an error in how he investigated. But he clearly dismisses many of the

Pioneer but it was another vendor, I want them to be open to that possibility when they do the investigation.

Q. Now, other than what you've just described with respect to the TVs and the tickets, what else supports your view that Mr. Cicero did not even investigate your allegations?

A. A conversation I had with Mr. Goode where he had told me that -- that he had sent a bid to Pioneer -- or to Smith & Wesson and charged less than his catalog price because the volume -- he was giving them a discount because he wanted to increase his business. That bid, he says, was provided to Mr. Flatley.

He said that bid was given to Pioneer, and Pioneer illegally sent that -- that bid to other MSC customers and told them that MSC is giving a smaller discount and going under the -- the price to Smith & Wesson and they don't do that with you. They did that in order to destroy MSC business with their other customers.

Mr. Goode tells me that he was going to sue Pioneer and when the lawsuit took place or was -- was to take place -- well, basically, he told me that much of it. I told that to Mr. Cicero.

302

things I said that he said he found no evidence of. I gave him evidence.

So I would just say that his investigation was greatly in error and that I find out, you know, through the documents you provided in discovery that he didn't even investigate.

So I think his investigation was a sham, but that's after the fact. While I worked at Smith & Wesson, I wasn't -- I wasn't privy to what he investigated, but I can tell you right now it wasn't very much. He -- he was aware of TVs given. He didn't investigate. He was aware of baseball tickets given. He doesn't seem to care. And instead he argued with me and said that I had recanted, which was also an -- in error.

All I told him was that it may not -- there could have been another vendor that gave me the tickets other than Pioneer. So that is not recanting. I still got tickets sent in the mail. It just may not have been Pioneer. It was just part of the pay to play that went on at Smith & Wesson. And instead in the investigation, he -- he puts a false claim in there that I recanted that I had been given the tickets. It wasn't the fact at all.

I'm just trying to be fair. If it wasn't

After, Mr. Cicero dismissed it as having not found any evidence that any vendor was being

given preferential treatment or that no bids were given from one place to another.

That isn't correct based on what Mr. Hynes told me. And in this particular situation, when I talked to Mr. Goode by phone, after I received the report from Mr. Cicero saying that there -- he found no evidence of bids being given to one company or another, Mr. Goode then told me that that he considered to be a lie because he had asked when there was a lawsuit pending.

Mr. Cicero acted as a mediator between Pioneer and MSC to avoid a lawsuit, which would set -- which would indicate that Mr. Cicero was deceptive in what he said in his investigation report. There not only was evidence that bids were taken from MSC and given to Pioneer to create a competitive imbalance but that Mr. Cicero was aware of it having mediated the dispute.

Q. And when did you speak with Mr. Goode after you received the report?

A. It would have been in the phone dump of my phone. I was actually at a tractor supply store and I called Mr. Goode by accident. We exchanged a few

A. I -- I just stated as such. I just answered that.

A. You can ask me every person at the shop and the answer is going to be the same. They did not tell me about what their investigation -- what they did during their investigation. A. I don't believe you're correct in that -that I said this was evidence of a violation of SOX. I said if it demonstrates quid pro quo, quid pro quo does. But in and of themselves, the items that took place, I didn't view anyone giving or receiving anything improper. What I said was that I felt like the -- if there was a quid pro quo demonstrated in those series of events, that can be evidence of improper influence taking place by a vendor to the people that direct the purchases at Smith & Wesson.

Q. And the first line says, Ed, I was given a gift card from a representative of one of our vendors.

Who provided the gift card to you?

A. Carl Hynes.

Q. And how did he provide it to you?

A. He handed it to me in a card.

Q. What kind of card?

A. A holiday card.

Q. And when did he provide that card to you?

A. I would assume prior to the holidays.

Q. And by "the holidays," you're talking about

the Christmas holidays?

Q. And why were you providing the card to Mr. Suraci at this point?

A. Because I wasn't sure what to do with it. It was deemed inappropriate based on the LRN

If they looked at -- just as you prompted me on not listening to the question, they didn't listen to what -- what I had testified.

training. LRN is a training that we were required to take that listed the -- that anything above a nominal value was in violation of gifts. That then would be considered a bribe, that amount, after I had to refer to it. So if it was under the amount of nominal, it wouldn't be improper. But if it was above the amount, it would be deemed improper.

So based on the LRN training, which I had to go back and look at, it was \$99. This gift card was for \$100. So was it actually considered nominal or was it -- was it considered above nominal? So in my estimation, I determined that it was above the

There was also the issue that -- my primary job at Smith & Wesson was running my department. I put that in my briefcase, and I can honestly say I didn't really look at it for a while. I went to investigate to see if it was nominal or not. Once I determined that it was above the nominal amount -- there's got to be a cutoff someplace. They determined it would be \$99, so in my mind, it was above. So I provided it to him.

This letter was written after the fact as well. I gave the card to Mr. Suraci. And then subsequently, he asked me to write an email that

bring Mr. Cicero in. It was Mr. Suraci after he

mentioned the statement where there's smoke, there's

Q. And earlier in your testimony, you said

that the gift card had been deemed inappropriate under the LRN. Who deemed it inappropriate?

A. Based on what I saw in the LRN, it mentioned -- I wasn't sure if the -- it mentioned the exact amount. If my recollection was correct, and it was, that it mentioned an amount of \$99. Anything above that was not -- was considered not nominal in their terms. So based on what I read, it was my determination that the LRN had considered that above the limit for a nominal value.

Q. And did you speak with Mr. Cicero about the gift card?

A. As I mentioned, I -- since that was the impetus for me to talk to Mr. Cicero, I believe I may

So I hope that answers your question.

Q. When did you originally provide the gift card to Mr. Suraci?

A. Sometime between the holiday and when this was written. I can't even tell you the number of days afterwards he said could you -- could you provide me the email so I'll -- I'll have something. So I went back to my office and sent him this email.

Q. And did you -- and do you know what Mr. Suraci did with the gift card?

A. No, I do not.

Q. And did you talk with Mr. -- Mr. Cicero also about the gift card?

Q. And do you know what Mr. Cicero or Mr. Suraci did to investigate the situation with the gift card?

A. No, I do not.

Q. And do you consider the gift card to be a violation of Sarbanes-Oxley?

A. Had I accepted it and used it, I believe it would have.

Q. Why do you believe that?

A. Because if I'm accepting gifts that are above nominal value and I am someone who directs purchases at Smith & Wesson, it may inadvertently influence me towards that vendor. That's why the company had put that into their — their company policy.

Q. Um-hmm. Now, you also raised a concern about the receipt of Red Sox -- your receipt of Red Sox tickets, right?

mentioned there were certain people that would have more information -- I think he mentioned Stanley

A. He didn't tell me specifically, but he had mentioned that -- that some of this stuff was generally known to people who worked there prior to my arrival.

- Q. Okay. When did you speak with him?
- A. It would have been right after this.
- Q. And what did Mr. Kapek say?

A. Mr. Kapek had related to me that Stanley would always preach something to the point where it was like a refrain that he would tell them, Only Pioneer work, only Pioneer work.

So I asked him how would Smith & Wesson have enough tools to -- to continue if he was telling you to only work on Pioneer. It didn't make sense to me. And he said, Well, if we're making Smith &

work.

And that didn't make sense to me until he explained then that Pioneer work he was talking about would then be issued back to us through the RoboCrib so production wouldn't -- wouldn't suffer any for lack, that just rather than using a tool that we produced that was ours that would be cheaper, they would be vending a tool from Pioneer that we had made but, yet, because Pioneer own -- owned it, would cost Smith & Wesson more.

Q. And did Mr. Kapek explain to you the basis for the information that he was telling you?

A. No. When I approached him, I said -- I told him what Leo had told me and explained that he told me that you were friends with Mr. Wnuk and might have some firsthand information. But I just let him talk, and that's what he -- that's what he related to me. So I prefaced it by saying, Here's what I wanted to talk to you about, and this was his reply.

Q. And did he say when this happened that Smith & Wesson was making tools that were -- let me just back up and -- and make it more simple.

Did he say when this was happening that --

A. Yes.

Q. When -- when was that?

Wesson tools for Pioneer because they have our proprietary design, they could only be sold back to us. So if we only did Pioneer work, it would go in the vending machine and we would purchase it back. And he didn't say there was a — a profit involved, but it was inferred that if Pioneer ordered a tool and sold it back to us that it would be at a higher price.

Now, that's -- that's kind of what he was laying out. And the new information I got from Stanley was that Mr. Wnuk was constantly telling them, Only work on Pioneer tools.

Q. And -- and what do you mean only work -- did he explain what he meant by only work on Pioneer tools?

A. Yes, that on each machine, there was a priority list of what tools we needed to work on every day. You know, they needed to be directed on -- on working on things that were relevant to our needs. And so he was saying that if they had a choice to work on a need that was for Smith & Wesson to keep us running on our tool, and that choice was between working on our tool or doing outside work for Pioneer, he wanted them to concentrate on putting those on the highest priorities to do the Pioneer

A. He -- he had -- he had mentioned that it was prior to my arrival but was nonspecific about dates. And so Mr. Wnuk was there for 43 years, so I knew it happened prior to me being there. What -- what caused the shift, whether it was when Stanley retired, I don't know. I just knew it was a practice that was no longer being done when I got there.

And we -- Mr. Wnuk and I worked together for a number of months, but Stanley indicated that it wasn't currently going on anymore.

Q. And did you consider this to be fraud or a violation of Sarbanes-Oxley or was this more of kind of a performance concern or an FYI on your part?

A. It — it could be both. It was something that in my mind if — if we were overpaying to that vendor, we also had blanket orders through that same vendor that we had five years of surplus already on hand and we had them coming in weekly and sometimes monthly. So it speaks to both. One was the state of disarray when I got there that no one is watching the henhouse, so to speak. And it possibly could be a case where a vendor was profiting more so than what they deserved because we were overbuying.

So, again, that's not for me to determine whether or not it was a case of poor performance on Mr. Wnuk's part or whether it was a case of, you know, over-purchasing in order to give, you know, one customer more business. I -- I don't -- I don't know that.

Q. So when did you become aware of the purchase order -- the blanket purchase order issue for the .213 drills?

A. All of the drills were overflowing. And when I came in -- and when you say when, I'm trying to preface it by when I first came in, I was tasked

we had -- we had blanket orders where they just came in automatically. No one had to send a requisition for them. So that this blanket order had been set up between Mr. Whuk and the vendor and Mr. Flatley.

Because normally -- well, in every case, any purchase by Mr. Wnuk would have to be approved by Mr. Flatley.

Q. Um-hmm.

A. So whether he, Mr. Flatley, was aware that those purchases were being made, you know, still going -- ongoing, you would think so. But one thing was certain: He signed for it initially.

Q. And did you ever determine -- did you ever uncover any evidence as to whether this was intentional on Mr. Wnuk's part?

A. No, I didn't.

THE COURT REPORTER: Intentional on whose part?

MS. BETRAM: Mr. Wnuk, W-n-u-k.
THE COURT REPORTER: Thank you.
THE DEPONENT: No.

BY MS. BETRAM:

Q. And I take it you passed along this
 information to Mr. Suraci. Did you also pass it
 along to Mr. Cicero?

A. I -- I did.

362

Q. And do you know what they did to look into this concern?

A. No, I do not.
Q. So let's look at the -- the next doc -next document, same exhibit. And I'll give you a
chance to read through the three of them. They're
kind of different strings, but they're, you know,
related to each other. These are about the -- right,
that's also about the .213. Let me go forward to
the .915 gun drills.

MR. LEE: Are we still in Exhibit 34, Connie?

MS. BERTRAM: We are. We're -- we're at -- MR. LEE: Just down? Just way down? MS. BETRAM: -- 355. We're at 355 on the bottom.

MR. LEE: Okay. Got it.

THE DEPONENT: Okay. Your question? I'm orry.

BY MS. BETRAM:

Q. This raises some issues about another type of drill that was -- that was on purchase order, correct?

A. Yes. All of the different sizes would be the same scenario in that --

36

with getting Robo 99 computerized. So as I went through that thing to put these items into the computer, I realized that we had so many that we literally had to extend our cage to another room in order to house them all. They just were stacked in boxes.

And so by entering them into the computer, which then became our -- our computerized system, we found these. So it was both a claim of showing how bad it was when I got there and this was a performance claim that, yes, I -- I found all this and corrected these purchases but felt that it -- it needed purview of somebody investigating the case to look at it and say why were we purchasing --

And -- and this is -- these drills are \$300 apiece. So when we had a seven-year supply, we're talking enough drills to fill a small room. So overage. So this was not like a small thing. This would have been hundreds and hundreds of thousands of dollars.

Q. And did you ever, yourself, investigate how it came about that Smith & Wesson had so many drills?

A. Again, I didn't -- I didn't investigate like the reasoning behind it. I just investigated well, why do we have so many, and it turned out that

Q. -- to employees of Smith & Wesson. When did you first become aware of that concern?

A. I was approached by a former driver of Pioneer. I don't know when it was. It would have been late in the situation when my wife and I were at a Walmart. But I -- I don't -- I don't know the date. It would just be late in the process.

Q. It was in 2014; is that right?

A. Yes. Yeah, it'd be 2014 after I had been talking to Mr. Cicero. I recounted it to him. If it happened prior to -- I know it was at least during

A. He -- he told me that he was told to pick up 10 TVs. He said one or two of them may have been for Colt, which is another manufacturer. So he wasn't sure of the number, one or two. So the actual number that went to Smith & Wesson would have been eight or nine TVs. And he said he was instructed to deliver them directly to the bosses' homes but not to bring them to the plant.

Q. Did he identify the names of the Smith & Wes -- Smith & Wesson managers who received them?

A. I asked him that. He said he didn't know names. He only had their home addresses.

Q. And did he provide their home addresses to vou?

A. No. He -- he didn't recall addresses. He just said the -- said, yeah, he didn't know any names. He just delivered them to their houses.

Q. And how did he know that they were Smith & Wesson managers?

Q. Um-hmm. Now, how did you know that he was -- hold on one second. I've just got to open a door.

How did you know that the person that approached you and your wife in the Walmart was a former driver for Pioneer Tools?

A. All I -- all I was aware was that's what he purported. He did know the names of the individuals, and it had to have been somewhat prior to my employment because he -- he mentioned the owner sent him to get the tools where these -- or the TVs where he sent them, and he mentioned that person as being Buck Upson. Right along the time when I started at Smith & Wesson, Buck Upson was transferring owner -ownership of Pioneer Tool to -- from himself to his nephew, Derek Upson. I even attended his retirement party. So it happened just as I came on.

So I know that the account the person was telling me about transpired prior to my arrival.

Q. And how did he approach you?

A. It was weird. It was -- I -- I actually made a police report with the Enfield Police because I thought it was odd that a person approached me as I was exiting -- I was actually in checkout. He approached me as I was exiting, and he was coming in the door. And then he said he -- he knew me. He recognized me. And I had never seen him before. And I told him he had been -- must have been mistaken. I -- I'm originally from Ohio. And he then said that he worked for Pioneer Tool and that he thinks he saw me at Smith & Wesson.

He worked there prior to my arrival. He couldn't have seen me.

- Q. Um-hmm.
- A. So when I left -- so I -- after our

MS. BETRAM: The Robocrib. It's R-o-b-o, dash, C-r-i-b.

BY MS. BETRAM:

Q. And do you have any reason to doubt that what Mr. Upson said was accurate?

A. Yes.

Q. And why is that?

A. Mr. Upson was saying he saw this tool being put into the RoboCrib, which is not the function of the owner. Secondly, if we were purchasing these tools, how then did he see us putting in tools that

386

388

understand.

Q. Did you do anything to look into your concerns about Rhode Island Carbide?

MR. LEE: Objection -- same objection, but you may answer if you can.

A. I -- I was gathering facts. So I had the belief that a large order being placed with Rhode Island Carbide was then given by Mr. Flatley to Derek Upson or to somebody at Pioneer. In response, Derek Upson sent me an email soliciting work for a large purchase order or a requisition that I had already -- I had just sent to Flatley.

Flatley was the only one that knew about it. And in the normal course, he would have signed it and passed it on to Dziobek. Instead, this one, he held onto, and then I get an email from Mr. Upson, you know, soliciting to bid for that -- that order.

And so as far as what I did to investigate, I checked just to find out whether or not Mr. Flatley had sent that requisition to Andrew Dziobek. He had not. He had held it for some reason. And I thought that was suspicious, and I got Mr. Suraci -- Suraci involved

Q. And how do you know that Mr. Flatley held on to the invoice?

I'm just now requisitioning?

So had I just purchased them and he put them in, it was more plausible than me just requisitioning some, meaning we didn't have any and I'm requisitioning some from Rhode Island Carbide to augment what we currently produced at Smith & Wesson. So it was my belief that there would have been none of those tools for him view.

Q. And do you have personal knowledge that Mr. Flatley told Mr. Upson that there was a pending purchase order for purchasing tools from Rhode Island Carbide?

A. My personal knowledge would be that I know the system of how it works. My requisitions are seen by no one other than my boss and Mr. Dziobek. So if someone else were to have given that information to Pioneer, it would have to have been myself, Mr. Flatley, or Mr. Dziobek. I know I hadn't, and I talked to Andrew and he -- he stated he had not. So by -- by simple deduction, I'm left with Mr. Flatley.

Q. But you did not overhear Mr. Flatley tell Mr. Upson about the order, right?

A. No. ma'am.

MR. LEE: Objection to the form of the question. Misstates the witness's prior testimony, but you may answer.

A. When you say I was actively looking, I don't know if I would characterize it that way. But had I looked at other opportunities throughout my time with Smith & Wesson, the answer is yes, I did.

Q. And when did you start looking for other opportunities while you were employed at Smith & Wesson?

A. I really couldn't put a time frame on it. I mean, it's -- it's something that a lot of times with the way that emails are today, I still get

at Smith & Wesson.

Now, when I was on paid leave and -- and I was sitting there, I -- I may have looked at the computer more than I did when I was currently at a job all day.

Q. But it's true you made applications for employment while you were still employed by Smith & Wesson before you went on administrative leave, right?

A. I can think of one, yes.

Q. And that was MSC, right?

A. No

Q. What -- what was the one that you recall?

A. There was an opportunity in Florida at Piper, the -- they make Piper small aircraft. They -- I was aware of that opportunity, and I believe I sent my resume there.

Q. And when was that?

A. Yeah, I -- I really wouldn't know a time frame.

So do I look at them, yes, and if it's -- if it's

something I feel fits my, you know, fits my skill set, it might be something I look at. It doesn't

mean that I'm, you know, disloyal or looking to move.

It just means that, you know, I was approached with

an opportunity and I looked at it.

Q. And you were looking for other opportunities while you were at Smith & Wesson in 2013, right?

A. No. There is a difference between looking for opportunities and looking at other opportunities. I looked at other opportunities, but I -- I wasn't actively seeking jobs. If you -- and in my mind, if I put my name out on LinkedIn as looking for work or -- that's where I'm actively seeking. But I haven't put anything out there.

But there might be recruiters that knew I had, you know, put a resume in some place that they have gotten wind of and they may contact me and send job opportunities. That's them soliciting me. But me putting my name on job markets, I know that I -- I don't -- I just don't believe I did that when I was

A. After I was placed on leave or terminated, one of the two, I did -- yeah, I would -- I would say I was on administrative leave when I talked to them.

Q. And you said, We then argued about how to collect the information.

Who was arguing?

A. It would have been Steve Wasielewski and myself. We had a group. As part of our ongoing cost savings ideas, Ron O'Brien had an idea to save us in our estimation what would have amounted to a \$10 million per year savings. And we were fleshing out how to implement that in Steve's department first. After having run the idea by Mr. -- I believe Mr. Fontaine and Mr. Flatley, we thought -- he put together a group containing Mr. Wasielewski and thought it would be good to try to implement it in his department.

So this was just fleshing out the details of how we try to implement Ron's idea.

Q. Okay. And what was Ron's idea?

A. The -- in looking at the mainframe that records tool life, it -- the machines actually will tell you when to change inserts. So ideally the interim set them to set an alarm at a hundred percent used to tell you to change the insert.

Because no one was monitoring this, Ron did

the idea to management and they said yes, go for it.

- Q. And were you doing what's called a Kaizen?
- A. It could be a -- considered a Kaizen, but in this particular case, we -- we had not deduced any savings yet. So down the road, there may have been a -- a Kaizen event around this, but at this point, we were just going through normal channels to propagate an idea that might save us a lot.
 - Q. So go to entries 263, 264, and 265.
 - A. All right. I'm there. I'm just reading.
- Q. Yeah. Just read through those three entries. They're all related to each other.
 - A. Okay. I've read them.
- Q. And those are text communications from you to Chet Lewis at Balzers, right?
- A. Yes, that -- that is the individual that we -- we spoke about earlier, Chet Lewis.
 - Q. And they were --

a study and found that the average number -- or the average percentage used at the time they changed the insert was 25 percent or somewhere around 20 percent, which meant that the employees would have less distractions during their workday if it had fresh tools in it.

So they would come in and change the tools as soon as they came in even though they'd only used 20 percent of the life of that tool, which was meaning that we were wasting 70-some percent of the useful tool life.

So he determined that if we would only change the tools when we -- they were in the 90-percent range plant-wide, extrapolating that by the -- the amount we spent on tools, it would amount to a \$10 million a year savings. That was his idea.

- Q. And other than you and Mr. Wasielewski and Mr. O'Brien, was anybody else working on this
- A. There were other members of that panel, some of which I had never met before. I believe they worked for Mr. Wasielewski, but I don't -- I don't
 - Q. And who was the team reporting to?
 - A. I was the lead on that because I brought

Q. And in the third one, you state, I will think through who might be a good person to advocate. Smith does 20,000 a year in -- 20,000 in coating a year. Is that right?

- A. Yes. That was relative to coating, yes.
- Q. And Mr. Lewis had asked you who might be able to help Balzers get some of the coating work, right?
 - A. Yes.
- Q. Okay. Did you identify a person who might be an advocate?

A. No. And the reason, this is just prior to me going on paid leave. So I stand corrected on my -- my recollections. But I went on paid leave within days, I think, of this. Or I don't know even know. This may have actually been on paid leave. I don't

Anyhow, if I'm talking to him about this job, I was the guy who -- who set out the coating. But if I'm talking to him about a job, it might not be -- I might not be the best source to advocate for him to be a vendor. So I was just going to -- I put him off until I found a source that I felt could be objective in making the best decision for Smith & Wesson. So I just felt ethically I'm not going to

Mrs. Baker, my wife, found a job at – that was being advertised at MSC. She texted me to tell me about it, and I told her, You have my resume, so apply. And then I told her that I could ask Al about it.

So this is just prior to my being put on paid leave. I felt like the handwriting was on the wall, and I better start looking at other opportunities. But that's -- that's the gist of it. But I wasn't the one who found the thing at MSC. That was Jan.

totally untrue, it's prove -- it's probable that it's based on false statements, but those in a management position that has the ability to look at and rescind those refuse to view or take action on your behalf, that is a form of retaliation, specifically based on the fact that we had an HR policy that mandated that certain actions be taken to avoid that situation.

So when that action isn't taken, and the only thing that I knew that -- that I did or was told about was reporting what I perceived to be wrongdoing in the company in respect to bribes and vendors and vendor allocation.

So my performance in my department was double what it had been prior to me being there, both -- in every measure. And I was being singled out and treated differently than other people in the -- the shop. And so I am only left with one conclusion, that it had to do with my submissions that someone was giving more work to one vendor based on gifts and affiliations that weren't in the best interest of Smith & Wesson.

Q. And why do you believe that the actions of these three individuals were because of your concerns about vendor (inaudible) --

THE COURT REPORTER: I'm sorry. I can't --

Q. And let's focus on the three different individuals that you identified. Why do you believe that Mr. Flatley was aware of your allegations of fraud when he prepared your February 2014 evaluation?

A. He's the one that wrote the false things right off the bat. The things that I had -- the documents that I produced have implied that if he wasn't a part of the problem, that he certainly should be and he would be aware of it.

So when you have someone that is acting to make one vendor prominent that's not the cheapest, it's not the best, and you have gifts being given and he tells me about a quid pro quo, I feel anyone's reasonable assumption would be that he is involved and that any action that wasn't warranted by my performance would be fruit from that -- that individual in the form of retaliation.

Q. I don't think you're understanding my question. We're -- we're focusing on an evaluation that was prepared in February of 2014, correct?

Q. Do you know whether Mr. Flatley even knew about your allegations of fraud when he prepared his

A. Well, I -- I understood your question to

446

I'm just not hearing you. It's garbled. Q. What is the basis for your belief that they

vendors as opposed to any other potential motive? A. I -- as I explained, I -- I can demonstrate

by the pitch board and -- which is the measure that we determine of each department that my production had more than doubled, which in my industry, if you can get a 20 percent increase in production, that's phenomenal. To have 115 percent increase in production, it's unheard of.

And in the same place, to increase quality by 30 percent and to set up a computerized system that made us more efficient, by performance, I knew that there was -- that the things that Flatley was saying were total falsehoods.

So they didn't have anything specific that -- that would explain their actions that made me stand out enough to where I'm being singled out, judged by a different set of criteria than anyone else in the shop other than the fact that I made submissions that I believed that fraud was -- had taken place at Smith & Wesson and that purchases were being directed contrary to the company's interests.

say what would make you think that. So do I have specific information that he knew? At that time, no.

- Q. And what about Mr. Fontaine; do you have specific information that he was aware of your allegations of fraud as of February of 2014 when the evaluation was prepared?
- A. I have no way of either knowing that he had, but his actions seemed to imply that he did.
- Q. And for Mr. Cicero, you didn't speak with him until late March or early April of 2014, right?
 - A. I think that's right.
- Q. And do you have any reason to believe that he was aware of your allegations of fraud when the evaluation was prepared in February of 2014?
- A. At that time, he wasn't even privy to it until I spoke with him. But if he's charged with doing the investigation and he doesn't want to look at evidence that I'm trying to present to him, physical proof, and he doesn't want to see it, then that tells me his investigation isn't interested in truth or proof. It's not deductive reasoning; it's inductive reasoning. He's got a conclusion that he wants things to fit to. He doesn't want to look at all the evidence and make a conclusion. He's rejecting the evidence.

A. I think that in order to answer it correctly, it's like I'd have to put myself in -- in the position of each -- each and every person I just mentioned and say see how much of what they saw is relevant. But I feel that the totality of what I've got screams. It doesn't just hint that there was retaliation; it screams that there was.

So I can go through each and every person and then their purview, how much of the items did they see and determine whether they could have deduced that conclusion from what they knew.

My view is that all those people I mentioned would be privy to the things that were in these documents that would show that I was retaliated against. But as far as do I know what one specific document that says let's retaliate against Earl, I --I can only say that Mr. Suraci's view was that I was being -- that the review was fraudulent and that I was -- Suraci was -- said that I was being subversively undermined by Mr. Flatley.

So that -- the inference or my

A. No, I don't know -- the inference was I told him everything. He said I had to -- everything that I investigated was what the inference was. He said, I had to ask him about the things that you said. That's part of what I do when I investigate.

All I know is they told me that they did tell him.

- Q. So with respect to Ms. Glica, do you have any reason to believe that she told Mr. Larry Flatley about your concerns?
 - A. I don't have specific reasons to believe that she had, but I -- like I said, I -- I've been told after the fact that he was told. So how that information got to him, I have no view of that.
 - Q. Do you have any reason to believe that Kathy Salvador told Mr. Flatley about your concerns?

understanding was everything that I told him was purview to be then investigated and asked of Larry

So that wasn't what I was told when I made those submissions to Mr. Cicero. And what he did was spoil any possibility of a good relationship between me and Mr. Flatley. The same as -- I've stated the exact same thing in email form to Ms. Bruce when I told her that if she continued and told Mr. Flatley that it would poison my situation with him and that my -- my good per -- I was hoping that my good performance over time would -- would win that relationship. And if Larry was exonerated of any wrongdoing that it would forever poison my relationship with him even if he was exonerated.

So I asked her not to do so and even made -- mentioned safety of my family. They disregarded that and told him anyways. I have no clue of when they told Mr. Flatley. All I know is I made submissions to Ms. Glica and Ms. Salvador, and then I got retaliated. Later on, I'm told that Mr. Flatley was made aware of my submissions, and then now I'm receiving retaliation because of it.

So I have no clue when they told Larry.

A. Yes.

Q. And do you know whether she told

Mr. Flatley after you objected?

- Q. And what did he say about that?

- Q. And did Ms. Bruce ever say that she had spoken with Mr. -- Mr. Flatley?

Q. -- I think it was incomplete.

Are you aware of any exhibits or witnesses that in particular support your contention that you were retaliated against in connection with your June 2014 performance evaluation?

MR. LEE: Objection to the form of the question. Asked and answered. But you could answer.

Q. What do you mean?

A. And so that document would absolutely make it clear that I'm being retaliated against in part because of that.

Q. Which document are -- are you referring to of Ms. Bruce?

A. The termination letter. She mentions my submissions. And -- and if that is even part of the reason for my termination, then it shows that -- that there's term -- that I was terminated in part because of making my submissions. That is not correct. I shouldn't be held whether it's even one-tenth or one one-thousandth of the reason I was let go because it then begs the question that if that wasn't, was that the last straw that broke the camel's back or was it 99 percent of why I'm being --

I don't care which it is. All I know is because she mentioned it in my termination, it means it was part of the consideration that I was let go. So that document does definitively, in my mind, say I was retaliated against for making submissions of fraud that went on at Smith & Wesson.

Q. Do you contend that you were retaliated against by being denied a bonus?

A. Yes.

462

A. The question is am I aware of them? Yes, and I've enumerated them in the last response.

Q. So you can't identify any particular document that relates to your contention that you were retaliated against in connection with your June 2014 performance evaluation?

MR. LEE: Same objection.

A. There are many documents that point to the fact that I pointed out eight factual errors in that review. And when I was -- had a face-to-face meeting with the individuals, I was told I -- I only can discuss one. So if -- I would just say if anyone had eight things said about them that they could prove to be false and you're -- you're going to only let them bring up one, and then at the -- the conclusion of you bringing up the one, they said, We're going to sign and affirm this evaluation, I don't believe there is any other way to see that as a form of retaliation against me based on my submissions to that company.

And the document that Ms. Bruce sent to me of my termination where she mentions my -- my submissions to them over the months as -- in that document, she mentions it and makes it part and parcel of my termination.

Q. Who retaliated against you in connection with denying you a bonus?

A. First of all, I know that -- I don't know who made the decision, but I do know that I got a call from Carl Hynes when I was at my doctor telling me that he was at a meeting with Larry Flatley, and that Larry Flatley was bragging that he kept my bonus among other things.

And the purpose for his call was he told me to get a lawyer and never come back to work at Smith & Wesson was his suggestion. He actually even said, If you don't know a lawyer, I will provide you a name of my attorney; he's good.

So even the people at -- at Pioneer felt my -- my -- that I was retaliated against at Smith & Wesson and was actually encouraging me to get an attorney because the things that we had heard from Larry today, which he didn't enumerate. All he did was say that Larry was bragging about keeping my bonus among other things, that I needed to get out of Smith & Wesson; it wasn't good for me there.

So that led me to believe I was retaliated against and that someone had kept my bonus as part of retaliation

Q. And did you report Mr. Hynes' statement to

BY MS. BETRAM:

Q. So do you contend that you were denied a raise because you complained about Pioneer Tools?

MR. LEE: Object to the form of the question, but you -- you may answer if you can.

A. I'm going to an -- answer this in a little bit roundabout way that they told us -- Ms. Bruce told every salaried employee that heretofore raises -- there will be no more merit raises, but the raises will take place on certain schedules and that you'd be paid according to what your job is paid throughout the -- throughout the country.

So that raise was part of the new policy. At this point, as long as you got a good review, you would get a raise at that time. And there was also part and parcel of that agreement with the employees that if you're salary, you would get a bonus based on company figures and, you know, so that you were eligible for the raise up to five percent.

A. Uh --

MR. LEE: Objection to the form of the question. Subject to the objection, you can answer if you can.

A. In discovery, there was a memo to Ms. Bruce asking her if she had informed me that my bonus had been kept. And I had not ever received such notification.

So it implied that it was a topic of discussion amongst Ann Bruce and someone else at Smith & Wesson about my bonus, which would lead me to believe that it was part and parcel of -- of my -the retaliation against me for submitting things about a fraud that was going on at Smith & Wesson.

Q. Anything else that you can point to in terms of witnesses or documents that support your contention that your denial of a bonus was

A. Nothing I can point to document-wise, no.

Q. Do you contend that you were denied a raise

So that was a record year that should have been and was a five percent bonus given to all employees. And I was excluded from the raise and the bonus. The only reason I was given was it -- not -it wasn't direct. All I knew was I was given a fraudulent review that had eight false statements in it. I wasn't able to refute them because I wasn't given the opportunity. And because of that, I lost out on the raise and the bonus.

So they can tell me why I didn't -- my performance was above others in my department, and I was discriminated unfairly and not even allowed to address all eight reasons why that -- that review was not factual.

Q. Were you eventually -- did you eventually receive a raise in 2014?

A. No.

Q. Did you receive a raise in 2013?

Q. Okay. And when was your raise in 2013?

A. It was supposed to take place in July, and that would constitute another time that I went to Ms. Glica and Ms. Salvador to -- to ask why I had been -- not gotten it. And I got a -- either a call or an email back from Kathy Salvador saying that

it -- it was on Larry's desk. He hadn't signed it. But you will have the raise in your next check.

So going to them, they followed through, and I got it. So whether it was an oversight or whether it was part and parcel of the retaliation that was taking place, I cannot say from my view. All I know is I didn't have it, I went to them, and then I got it.

- Q. Do you contend that that 2013 raise was retaliatory?

- Q. And what submission had you made by July of 2013?

MR. LEE: Objection -- objection to the form of the question, but you may answer if you can

A. Because I was told that it was -- by
Mr. Cicero that I was being put on leave for my
safety, and then after being on there for three
months, nearly three months, I talked to an attorney,
and my attorney believed that Smith & Wesson was
simply trying to run out the clock, as it were,
because there was a statute of limitations on
Sarbanes submissions. And that I believed that my
time on paid leave was a way for Smith & Wesson to
simply beat the clock and run out my time of -- you
know, statutory time for my submissions so that they
could do -- it'd be a legal thing but avoid breaking

Q. Were you ever given -- is it your position that you were given discipline while you were employed at Smith & Wesson?

A. Not that I can think of, no.

Q. Now, I know that you were placed on leave, it sounds like in July of 2014. Do you know who made the decision to place you on leave?

A. No, I don't.

Q. And is it your contention that that decision was retaliatory?

A. Yes.

Q. And who do you contend retaliated against you in connection with the decision to place you on leave?

A. I think that --

Q. Now, I understand that your -- your attorney may have espoused that view. Are you aware of any other evidence in terms of documents or witnesses that support your view that Smith & Wesson was trying to run out the clock on your statute of limitations by placing you on administrative leave?

MR. LEE: Objection to the form of the question. And if your belief comes from any discussions you had with your lawyer, I'm going to direct you not to answer that question.

MS. BETRAM: I'm asking for him -- his beliefs other than what his counsel may have told him

MR. LEE: Okay. That's fair.

THE DEPONENT: I believe that I did look at things online that seemed to confirm that

opinion.

BY MS. BETRAM:

Q. And what did you look at online that supported that view?

A. Six years later, I have no clue what, but I know at that time, I — I felt that my — those documents that I read would — seemed to indicate that I was being singled out over my colleagues at

MR. LEE: Objection to the form of the question, but you may answer if you can.

A. I was singled out over every other employee on a number of points, and the only difference that I could be -- I could deduce in my head was that I had made a submission and they hadn't.

- Q. Anything else?
- A. No, other than the thousands of documents
- Q. Did anyone ever tell you that you were terminated because you raised concerns about Pioneer
- A. I told you the only communications about reasons for termination that were given to me by the company was contained in that termination letter. So the answer would be that letter never mentioned Pioneer Tools, so they didn't tell me that.

Q. And do you know the basis for their decision to terminate you?

A. If I take my -- the letter of termination from Anne -- Anne Bruce to be factual, then it was partially because I made submissions and partially because of the other things that she mentions in that -- that letter.

- Q. But other than what you read in that letter, you don't know why the company terminated you, right?
- A. No, that was -- that was their communication to me of why I was let go. But even in that, it lists my submissions.
- Q. Who do you contend retaliated against you by making the termination decision?
- A. I don't know who made it, so I wouldn't

A. I was told by the plant manager, Dan Fontaine, that I was no longer allowed to seek help from HR and that any problem I had, I needed to take it to Mr. Flatley. I asked him, What if the problem is a problem with Mr. Flatley? He said that still pertains, that you need to report it to Mr. Flatley.

That is contrary to the employee handbook, everything that the company policy states regarding these things, and yet they did it anyways.

I was also told that they didn't take away -- that raises wouldn't be given on a merit basis anymore. And after disciplining Mike Jurga at -- and was in agreement with Mr. Fontaine, he told me I should write him up. His write-up was rescinded. I was never talked to. And they offhand -- not only did they rescind his write-up for being insubordinate to me, they gave him a raise. I was asked who did this, and they told me it was -- it was Mr. Flatley

So my deduction is based on what Mr. Suraci said that I -- he was poisoning my people and using them against me, that he had urged Mr. Jurga to be insubordinate with me, and when he did so, he made sure that he didn't get a write-up in his personnel file and ended up getting a raise for having been

That would have been a February meeting 12 where Mr. Suraci was -- was out of the plant. 13 Mr. Flatley said, Come with me, took me over to Dan's office, and we had a discussion. In that discussion, 15 I was told I was not allowed to seek any more HR 16 assistance in this matter and I had to take all things up with Mr. Flatley. Q. 1	* * *	02:06:36	1	person that is you know, is talking about those	02:09:38
2	EARL DONALD BAKER,	02:06:36	2	things.	02:09:42
3	having been first duly sworn, was examined and	02:06:36	3	So I felt you know, we had mentioned	02:09:42
4	testified as follows:	02:06:47	4	the confidentiality in each of the meetings,	02:09:46
5	* * *	02:06:47	5	whether it was HR or Mr. Cicero, and I was assured	02:09:49
6	EXAMINATION	02:06:47	6	there would be confidentiality. But that's pretty	02:09:55
7	BY MS. BERTRAM:	02:06:47	7	much the context of what I you know, what I told	02:09:59
8	Q. Welcome back, Mr. Baker. Again, I'm	02:06:50	8	them.	02:10:02
9	Connie Bertram, and I represent Smith & Wesson in	02:06:53	9	Q. Let me let me break this up a little	02:10:03
10	this case prior day of your deposition, you said	02:06:56	10	bit so that that your testimony is clear.	02:10:05
11	that you had mentioned Sarbanes-Oxley to HR	02:07:01	11	You indicated that you had mentioned	02:10:08
12	representatives of Smith & Wesson when you raised	02:07:05	12	Sarbanes-Oxley to Kathy Salvador, correct?	02:10:11
13	concerns about Flatley	02:07:08	13	A. Yes.	02:10:13
14	MR. LEE: Sorry to interrupt	02:07:08	14	Q. What did you say to her specifically	02:10:13
15	(Reporter clarification.)	02:07:08	15	concerning Sarbanes-Oxley?	02:10:17
16	(Off-the-record conference.)	02:07:08	16	A. Well, I basically said that there were	02:10:18
17	BY MS. BERTRAM:	02:07:36	17	indications that things were going on, that there	02:10:25
18	Q. Mr. Baker, again, I'm Connie Bertram,	02:07:36	18	were issues taking place that were not	02:10:30
19	and I represent the defendant, Smith & Wesson, in	02:07:38	19	basically, decisions were being made within Smith &	02:10:35
20	this case. During the prior day of your	02:07:41	20	Wesson that weren't they weren't decisions made	02:10:40
21	deposition, you indicated that you had mentioned	02:07:44	21	in the best interests of Smith & Wesson.	02:10:43
22	Sarbanes-Oxley to HR representatives at Smith &	02:07:48	22	And I believe that to be part and	02:10:45
23	Wesson. That occurred in in mid of 2013,	02:07:52	23	parcel of the fact that people were accepting gifts	02:10:51
24	correct?	02:07:56	24	that were not appropriate, based on what we had	02:10:55
25	A. That's correct.	02:07:57	25	gone through in both in the company policy and	02:11:00
1	Q. And do you recall the words that you	02:07:58	1 2	also in that that LRN course that we took.	02:11:04
3	said to them about Sarbanes-Oxley?	02:08:01	3	Q. And did you use use the words	02:11:11
4	A. Yes. I had referenced the LRN that I	02:08:13	4	"Sarbanes-Oxley" when you spoke with Kathy	02:11:15
5	had been asked to take as a member of Smith &	02:08:16	5	Salvador?	02:11:16
6	Wesson. All salaried employees had to take a	02:08:18	6	A. Yes. Yes.	02:11:17
7	course on whistle-blowing, and in there was where	02:08:24	7	Q. Okay. And what did you say	02:11:19
8	I I learned what Sarbanes-Oxley was.	02:08:26	8	specifically about Sarbanes-Oxley? A. Just what I just said, that that it	02:11:21
9	So since that was had taken place basically concurrent with me going there, I	02:08:32	9	gave the scope of what things were considered to be	02:11:27
10	referenced Sarbanes-Oxley, the things in there,	02:08:37	10	inappropriate actions that needed to be reported	02:11:34
11	and and why I believed the things that I	02:08:41	11	and what things were not. And so based out of that	02:11:36
12	witnessed needed to be reported. And so it was	02:08:45	12	context, I told her issues that I felt needed to be	02:11:39
13	it was mentioned in the context of comparison,	02:08:50	13	reported and looked into.	02:11:43
14	comparing it to the LRN.	02:08:54	14	And I also mentioned that there were	02:11:46
15	Q. And you said that you gave reference to	02:08:57	15	gifts being given that were outside the scope of	02:11:52
16	the things in there. What what are you	02:08:59	16	what our company policy allowed and what was	02:11:55
17	referring to?	02:09:01	17	reinforced with that LRN training, and that I felt	02:12:01
18	A. "In there," mentioned a number of	02:09:02	18	there was a definite quid pro quo between the two	02:12:05
19	things, one being what was deemed to be an	02:09:06	19	in that it was mentioned to me that that there	02:12:10
20	appropriate gift, what was it used a term,	02:09:11	20	was a connection between the gifts and how the	02:12:15
21	"nominal" thing was okay, and it quantified that	02:09:16	21	vendors were being treated.	02:12:19
22	nominal value as being \$99.	02:09:19	22	So, to me, the the barbecues at	02:12:21
23	It it mentioned what type of things	02:09:24	23	Pioneer was definitely a watershed mark for me in	02:12:27
24	to were worthy of being reported, what the law	02:09:27	24	that I was aware of transactions that took place	02:12:32
		02:09:32	25	•	02:12:35
25	provides for and what the protections are for the		1 23	that weren't in the best interests of Smith &	02.12.33

1	Wesson. And there were gifts being given and	02:12:37	1	then it did become a SOX claim.	02:15:52
2	received that weren't within the company policy,	02:12:42	2	So, again, you know the legal aspects	02:15:56
3	and that the statement that connected the two	02:12:46	3	of it far better than I. It just showed to a	02:16:00
4	because I didn't actually see people receiving	02:12:49	4	novice, such as myself, which things are SOX-worthy	02:16:06
5	gifts. I heard, you know, a lot of different	02:12:52	5	and which things were not.	02:16:09
6	stories. But when Mr. Flatley told me that if I	02:12:57	6	And in this case, I pointed out to	02:16:11
7	had shown up to that meeting and the barbecue	02:13:02	7	Kathy which things were Sarbanes-Oxley-related, and	02:16:13
8	and I was the highest-ranking Smith & Wesson	02:13:06	8	it just boiled down to a simple thing for me, is:	02:16:21
9	officer there on that given evening, that I would	02:13:10	9	These actions weren't right, and I reported them.	02:16:24
10	surely win something.	02:13:14	10	And all I had to do was that LRN was just let	02:16:27
11	And to me, that demonstrated a quid pro	02:13:15	11	me know that I was on the right track and I was	02:16:33
12	quo. And it gave context to all of the little	02:13:18	12	doing the proper thing.	02:16:36
13	things that were being done that weren't in the	02:13:22	13	Q. So it's it's your testimony that you	02:16:38
14	best interest of Smith & Wesson, where we were	02:13:26	14	thought that things were SOX-worthy	02:16:42
15	we were losing money, not getting when a vendor	02:13:28	15	MR. LEE: Objection.	02:16:42
16	did something incorrectly, we didn't we didn't	02:13:33	16	BY MS. BERTRAM:	02:16:42
17	ask for the credits back that we should have, and	02:13:38	17	Q based on the information the LRN	02:16:45
18	those things weren't proper.	02:13:42	18	training; is that right?	02:16:49
19	But like I said, that gave context to	02:13:44	19	A. Yes.	02:16:50
20	why that was happening in that I was told by my	02:13:47	20	Q. And you testified earlier that you also	02:16:50
21	boss, a director that was just under a vice	02:13:51	21	used the words "Sarbanes-Oxley" when you spoke with	02:16:55
22		02:13:58	22		02:16:58
23	president that was telling me that there was a	02:14:00	23	Ann Glica; is that right? A. Yes.	02:17:01
24	pay-to-play society going on at Smith & Wesson with	02:14:03	24		02:17:01
25	the vendors and that all I had to do was do certain	02:14:08	25	Q. And those were during conversations	02:17:03
	things to be a part of that gift-giving system.			also in mid-September of 2013, right?	
		493			495
1	And that's what I told her.	02:14:11	1	A. Yes. Those were actually on the same	02:17:05

10	because it	02:24:14	10	about Sarbanes-Oxley.	02:27:17
11	MR. LEE: Yeah.	02:24:14	11	One other issue that I know for sure we	02:27:20
12	BY MS. BERTRAM:	02:24:14	12	discussed SOX in length was a conversation whereby	02:27:24
13		02:24:16	13	Mr. Cicero had admitted that he had broken my	02:27:30
14	Q got a little jumbled anyway.	02:24:18	14	confidentiality and told Mr. Flatley that I had	02:27:34
15	MR. LEE: And, actually, you got you	02:24:19	15		02:27:40
16	went, like, in and out a little bit, too.	02:24:21	16	implicated him in my submissions to him,	02:27:46
17	MS. BERTRAM: Okay.	02:24:21	17	Mr. Suraci, and HR. I was not happy with that	02:27:50
18	MR. LEE: I figured out what the	02:24:23	18	because it violated what he had told me in our	02:27:53
19	question was, but	02:24:24	19	initial meeting.	02:27:56
20	BY MS. BERTRAM:	02:24:24	20	And I said that that was the reason I	02:27:59
	Q. In your conversations with Mr. Cicero,	02:24:24	21	believe that my the harassment by Mr. Flatley	02:28:04
21	did you make reference to Sarbanes-Oxley?	02:24:26	22	escalated exponentially after that point and that I	02:28:08
22	A. Yes, we we mentioned it in a number			was angry with him for doing that. And he	02:28:12
23	of contexts. One of the reasons that comes one	02:24:35	23	explained that it was part of his investigation,	
24	of the things that we mentioned at first was the	02:24:42	24	that he felt like it's too tough to investigate	02:28:17
25	fact that initially, I was talking to Mr. Suraci	02:24:45	25	without having let Mr. Flatley know what I had told	02:28:23
		501			503
1	about the the going-on relating to the	02:24:51	1	him. So he had told him.	02:28:25
2	harassment by Mr. Flatley.	02:24:54	2	And I I asked him that you know,	02:28:27
3	In doing so, we brought up I brought	02:24:58	3	we discussed the fact that harassment under the	02:28:31
4	up the context that there was a reason why he was	02:25:03	4	guise of or for the express purpose of knocking me	02:28:34
5	harassing me in that way and that I had been told	02:25:09	5	back because I've informed on some of the	02:28:41
6	by Mrs Ms. Salvador not to mention the aspect	02:25:13	6	activities that I believed to be against the	02:28:45
7	relating to vendor gifts and vendor influence on	02:25:18	7	interest of the the shareholders, and fraud in	02:28:49
8	the decisions being made and that that was a	02:25:25	8	some cases, that it was wrong for him to harass me,	02:28:51
9	context that made a lot of what was going on	02:25:28	9	and that when he told him, all he did was make that	02:28:58
10	between Mr. Flatley and myself it gave it	02:25:33	10	grow.	02:29:01
11	context.	02:25:37	11	And he told me at that point that he	02:29:02
12	So it was Mr. Suraci's view that this	02:25:37	12	was sure that Mr. Flatley wasn't harassing me	02:29:04
13	was serious. His exact words were: Where there's	02:25:44	13	because he had warned him and said that my	02:29:11
14		02:25:49	14	submissions were made in good faith and with the	02:29:14
15	smoke, there's fire. And I'd say there's	02:25:51	15	-	02:29:16
16	definitely smoke. If he asked whether or not it	02:25:54	16	interest of Smith & Wesson in mind; and that because of this, he was assured that after	02:29:18
17	would be okay to escalate this to the next level	02:25:58	17	•	02:29:22
18	and speak with someone at legal.	02:26:01	18	admonishing Mr. Flatley of this, that he was	02:29:25
19	Prior to that conversation, I had never	02:26:05	19	assured by Mr. Flatley that no more harassment	02:29:28
20	heard of Mr. Cicero, and I told him it was okay.	02:26:11	20	would take place because of it.	02:29:30
21	Mr. Suraci then escalated this to to be more of	02:26:11	20	But that whole explanation, that whole	02:29:30
	a formal claim with legal department. And up to			conversation was in the context of Sarbanes-Oxley	
22	that point, I had been just talking to HR. And in	02:26:21	22	and harassment due to me implicating him with some	02:29:38
23	some cases, even, I spoke to Mr. Flatley about some	02:26:25	23	of the things I told them.	02:29:44

A. Yes. I did some research after the fact, and I got a an email from my brother-in-law, who was the president of Rolls-Royce, and he he gave me some information. You have some emails from him. And, of course, verbally he he gave me information. Q. When you say that you did some research after the fact, what do you mean when you say "after the fact"? A. After the LRN training, throughout the process of after I had made a submission with Kathy Salvador and it progressed to the point through Mr. Suraci to Mr. Cicero, at the point where Leo got harassed, I knew it wasn't proper what was going on, but I didn't know contextually how to deal with it. So I researched and found a thing that talked about harassment of third parties, and I put that in the email to Mr. Suraci. But I I learned that wording that I used in there through an Internet search.	519 02:53:50 02:53:52 02:53:53 02:53:57 02:54:02 02:54:02 02:54:16 02:54:27 02:54:27 02:54:28 02:54:40 02:54:40 02:54:40 02:54:59 02:55:00 02:55:00
